

New Self-Regulatory Organization of Canada

Amendments to the IDPC Rules and to IDPC Form 1 regarding the floating index margin rate methodology

Blackline copy of the Amendments to IDPC Rules

Amendment #1 – IDPC Rule subsection 5130(4) is amended to replace the term “major broadly based index” with “major widely quoted market index” as follows:

“foreign listed equity securities eligible for margin”	Securities (other than bonds, debentures, rights and warrants) listed on an <i>acceptable exchange</i> outside of Canada and the United States that are constituent securities for the exchange’s major broadly based <u>widely quoted market index</u> , and the <i>index</i> is on the <i>Corporation’s</i> list of foreign market indices whose constituent securities are eligible for margin.
--	---

Amendment #2 – IDPC Rule subsection 5130(9) is amended by:

- adding and amending the definition “broad based index”, currently found in the General notes and definitions of Form 1, and
- amending the following other definitions,

in alphabetical sequence:

<u>“broad based index”</u>	<p><u>An equity index in which:</u></p> <p><u>(i) the basket of equity securities underlying the index consists of thirty or more securities,</u></p> <p><u>(ii) the single largest basket security position by weighting comprises not more than 20% of the overall market value of the basket,</u></p> <p><u>(iii) the average market capitalization associated with each security in the basket of equity securities underlying the index is at least \$100 million,</u></p> <p><u>(iv) the basket securities shall be from a broad range of industries and market sectors as determined by the Corporation to represent index diversification, and</u></p> <p><u>(v) the index constituent securities are listed and traded on an acceptable exchange.</u></p>
----------------------------	--

...

“cumulative relative weight percentage”	An overall relative weight percentage determined by calculating, in accordance with subsection 5360(5) <u>5360(7)</u> , the actual basket weighting for each security in a <i>qualifying basket of index securities</i> in relation to its latest published relative weighting in the <i>index</i> .
---	---

...

“floating margin rate”	The floating margin rate set by the <i>Corporation</i> in accordance with subsection 5360(3) <u>5360(5)</u> , <u>subject to the minimum floor margin rate in subsection 5360(2)</u> .
------------------------	--

“incremental basket margin rate”	The incremental basket rate for a <i>qualifying basket of index securities</i> calculated in accordance with subsection 5360(6) <u>5360(8)</u> .
“index”	<p>An equity index in which:</p> <p>(i) the basket of <i>equity securities</i> underlying the index consists of eight or more securities,</p> <p>(ii) the single largest security position by weighting comprises not more than 35% of the overall <i>market value</i> of the basket,</p> <p>(iii) the average market capitalization for each security position in the basket of <i>equity securities</i> underlying the index is at least \$50 million, and</p> <p>(iv) the securities constituting the foreign equity index are listed and traded on an exchange that meets the criteria for an <i>acceptable exchange</i>. <u>Either a <i>broad based index</i> or a <i>sector index</i>.</u></p>
...	
“qualifying basket of index securities”	A basket of <i>equity securities</i> with the characteristics in subsection 5360(4) <u>5360(6)</u> .
...	
“regulatory margin interval”	The <i>Corporation’s</i> regulatory margin calculation determined in accordance with subsection 5360(2) <u>5360(4)</u> .
“ <u>sector index</u> ”	<p><u>An equity index in which:</u></p> <p><u>(i) the basket of <i>equity securities</i> underlying the index consists of eight or more securities,</u></p> <p><u>(ii) the single largest basket security position by weighting comprises not more than 35% of the overall <i>market value</i> of the basket,</u></p> <p><u>(iii) the average market capitalization associated with each security in the basket of <i>equity securities</i> underlying the index is at least \$100 million, and</u></p> <p><u>(iv) the index constituent securities are listed and traded on an <i>acceptable exchange</i>.</u></p>
...	
“tracking error margin rate”	The last calculated <i>regulatory margin interval</i> for the tracking error resulting from a particular offset strategy, <u>subject to the minimum floor margin rate in subsection 5360(2)</u> .

Amendment #3 – IDPC Rule subsection 5360(1) is amended by adding references to both the “greater of” and minimum floor margin rates in the margin calculations, as follows:

5360. Index participation units and qualifying baskets of index securities

- (1) The minimum *Dealer Member inventory margin* and *client account margin* requirements for *index participation units* and *qualifying baskets of index securities* are as follows:

Minimum margin required	
Category (i) Index participation units	Category (ii) Qualifying basket of index securities
<p>(a) The <u>greater of</u>:</p> <p style="padding-left: 40px;"><u>(I) the floating margin rate percentage</u> (calculated for <i>index participation unit</i> based on its <i>regulatory margin interval</i>), <u>and</u></p> <p style="padding-left: 40px;"><u>(II) the minimum floor margin rate required under subsection 5360(2)</u>,</p> <p>multiplied by</p> <p>(b) The <i>market value of index participation units</i>.</p>	<p>(a) The sum of:</p> <p style="padding-left: 40px;">(i) The</p> <p style="padding-left: 40px;"><u>(I) the greater of</u>:</p> <p style="padding-left: 80px;"><u>(A) the floating margin rate percentage</u> (calculated for a perfect basket of index securities based on its <i>regulatory margin interval</i>), <u>and</u></p> <p style="padding-left: 80px;"><u>(B) the minimum floor margin rate required under subsection 5360(2)</u>,</p> <p>and</p> <p style="padding-left: 40px;">(#II) The calculated <i>incremental basket margin rate</i> for the <i>qualifying basket of index securities</i>,</p> <p>multiplied by</p> <p>(b) The <i>market value of qualifying basket of index securities</i>.</p>

Amendment #4 – IDPC Rule section 5360 is amended by adding new subsection 5360(2) as follows:

(2) The minimum floor Dealer Member inventory margin and client account margin rates for the purposes of subsection 5360(1) and offset strategies recognized in Rule 5700 are as follows:

<u>Qualifying index, individual and offset strategies</u>	<u>Category (i) Broad based index as defined in subsection 5130(9)</u>	<u>Category (ii) Sector index as defined in subsection 5130(9)</u>
<u>Floor rate percentage to be used in determining margin rate for unhedged positions in <i>index participation units</i> and <i>qualifying basket of index securities</i></u>	<u>10.00%</u>	<u>15.00%</u>
<u>Floor rate percentage to be used in determining <i>tracking error margin rate</i> for qualifying offset strategies involving <i>index products</i></u>	<u>2.00%</u>	<u>3.00%</u>

Amendment #5 – IDPC Rule section 5360 is amended by adding new subsection 5360(3) as follows:

- (3) The Corporation calculates a regulatory margin interval for index products on qualifying indices. A qualifying index for the purposes of subsections 5360(1) and 5360(2) must be a widely quoted market index, as determined by the Corporation, that:
- (i) meets the minimum requirements for an index in subsection 5130(9), and
- (ii) is included on the list of floating and tracking error margin rates for qualifying Canadian and U.S. index products.

Amendment #6 – IDPC Rule subsection 5360(2) is amended by renumbering to subsection 5360(4) and adding clause 5360(4)(ii) as follows:

(24) The Corporation calculates a regulatory margin interval according to the following formula:

- (i) Maximum standard deviation of percentage changes in daily closing prices over the most recent 20, 90, 260 trading days x 3 (for a 99% confidence interval) x Square root of 2 (for 2 days price risk coverage)
- rounded up to the next ¼%.

- (ii) In limited circumstances, to ensure appropriate margin requirements, the Corporation may use discretion in calculating a regulatory margin interval. Dealer Members will be notified by the Corporation if any adjustments to the regulatory margin interval calculation are made.

Amendment #7 – IDPC Rule subsection 5360(3) is amended by:

- renumbering to subsection 5360(5),
- clarifying language in clause 5360(5)(iii), and
- updating the reference in clause 5360(5)(iv),

as follows:

- (35) To calculate the floating margin rate for an index participation unit or a perfect basket of index securities:
- (i) the Corporation uses the last calculated regulatory margin interval, which is effective for the regular reset period unless a violation occurs,
- (ii) in normal circumstances, the floating margin rate is reset on the regular reset date to the regulatory margin interval calculated as at the regular reset date,
- (iii) if a violation occurs, the Corporation may reset the floating margin rate ~~is reset~~ on the date the violation occurs to the regulatory margin interval determined as at the date of the violation, and
- (iv) the regulatory margin interval determined in clause ~~5360(3)~~5360(5)(iii) ~~must~~will be effective for a minimum of 20 trading days and reset at the close of the 20th trading day to the regulatory margin interval determined as at that date if a reset results in a lower margin rate.

Amendment #8 – IDPC Rule subsections 5360(4) through 5360(6) are amended by renumbering sequentially and updating the references in clause 5360(7)(ii), as follows:

- (46) A basket of *equity securities* is a *qualifying basket of index securities* if:
- (i) all of the securities in the basket are included in the composition of the same *index*,
 - (ii) the basket comprises a portfolio with a *market value* equal to the *market value* of the *underlying securities* in the *index*,
 - (iii) the *market value* of each *equity security* comprising the portfolio proportionally equals or exceeds the *market value* of its relative weight in the *index*, based on the latest published relative weights of securities comprising the *index*, and
 - (iv) the required *cumulative relative weight percentage* of all *equity securities* comprising the portfolio:
 - (a) equals 100% of the cumulative weighting of the corresponding *index*, if the basket of *equity securities* underlying the *index* is comprised of less than 20 securities,
 - (b) equals or exceeds 90% of the cumulative weighting of the corresponding *index*, if the basket of *equity securities* underlying the *index* is comprised of 20 or more securities but less than 100 securities, and
 - (c) equals or exceeds 80% of the cumulative weighting of the corresponding *index*, if the basket of *equity securities* underlying the *index* is comprised of 100 or more securities,

based on the latest published relative weightings of the *equity securities* comprising the *index*.
 - (v) If the cumulative relative weighting of all *equity securities* in the basket equals or exceeds the required *cumulative relative weight percentage* and is less than 100% of the cumulative weighting of the corresponding *index*, the deficiency in the basket must be filled by other *equity securities* included in the composition of the *index*.

(57) The *cumulative relative weight percentage* is determined:

- (i) by calculating for each security in a *qualifying basket of index securities*:
 - (a) its actual basket weighting, and
 - (b) its latest published relative weighting in the *index*,

and then,
- (ii) by summing the lesser of the two weighting percentages calculated for each security in sub-clauses ~~5360(5)~~5360(7)(i)(a) and ~~5360(5)~~5360(7)(i)(b) for all of the securities in the *qualifying basket of index securities*.

(68) The *incremental basket margin rate* for a *qualifying basket of index securities* is calculated as the sum:

Market value of each underweighted	x	Margin rate for that security	x	The % by which the security is underweighted (calculated according to the formula: published relative weighting
--	---	----------------------------------	---	---

security in
basket

of the security - actual basket weighting of
the security)

for each underweighted security in the basket.
