4802. Introduction

- (1) Part A of Rule 4800 sets out additional requirements applicable to transactions that are not cleared and settled through a clearing corporation.

PART A.1 – FIXED INCOME TRANSACTIONS

4803. Fixed income accrued interest

- (1) All securities having interest payable as a fixed obligation, except securities in sale and *repurchase agreement* transactions, must be conducted on an accrued interest basis until maturity or a default in such payment either occurs or is announced by the debtor, whichever is the earlier event. The *Corporation* may set aside this requirement in specific cases where common practice and expediency prompt such action and will give due notice to all *Dealer Members* in such cases.
- (2) Prior to actual default or announcement by the debtor as specified in subsection 4803(1), sales made of securities but undelivered at the time of default or such announcement, must be conducted on an accrued interest basis under the terms of the original transaction.

- (6) Accrued interest on trades in interest paying instruments that pay interest monthly and compound interest monthly must be zero, if the value date of the trade is an interest payment date. Otherwise, the accrued interest on such trades must be calculated by multiplying the face amount of the instrument by the interest rate of the instrument and the number of days between the value date of the trade and the last interest payment date prior to the value date of the trade and dividing the result by twelve multiplied by the number of days between the next interest payment date after the value date of the trade and the last interest payment date prior to the value date of the trade.
- (7) For bonds or debentures that are only available in registered form, transactions made one *business day* before a regular interest payment and up to two *business days* before the closing of the transfer agent's books for the next interest payment, both days inclusive, will be on an "and interest" basis. The full amount of such interest payment must be deducted by the seller after the calculation of interest on the regular delivery basis, unless delivery is completed to the buyer by 12 p.m. at a transfer point on the date of the closing of the transfer agent's books for a regular interest payment.
- (8) For bonds or debentures that are only available in registered form, transactions from one *business day* before the closing of the transfer agent's books up to and including two *business days* before a regular interest payment must be "less interest" from settlement date to the regular interest payment date.

5461. Foreign exchange currency group criteria and monitoring

- (1) **Criteria** - The qualitative and quantitative criteria for initial qualification within each currency group are as follows:
 - (i) A Group 1 currency must:

Corporation Investment Dealer and Partially Consolidated Rules

- (a) have a spot price volatility level of less than or equal to 1.00%, and
 - (b) be a primary intervention currency of the Canadian dollar.
- (ii) A Group 2 currency must:
- (a) have a spot price volatility level of less than or equal to 3.00%,
 - (b) have a daily quoted spot rate by a Schedule 1 *chartered bank*, and
 - (c) have either:
 - (I) a daily quoted spot rate by either:
 - (A) a member of the Economic and Monetary Union, or
 - (B) a participant in the Exchange Rate Mechanism II,
 or
 - (II) a listed currency *futures contract* on a futures exchange.
- (iii) A Group 3 currency must:
- (a) have a spot price volatility level of less than or equal to 10.00%,
 - (b) have a daily quoted spot rate by a Schedule 1 *chartered bank*, and
 - (c) be of a member country of the International Monetary Fund with Article VIII status, and no capital payment restrictions as they relate to security transactions.
- (iv) A Group 4 currency has no initial or ongoing qualification criteria.

(2) **Monitoring currency adherence to group qualitative criteria -**

On at least an annual basis, the *Corporation* shall assess the adherence of each currency in a group to the qualitative criteria of the particular currency group to determine whether the currency continues to satisfy the qualitative criteria of the currency group.

(3) **Currency group upgrades and downgrades –** Where the *Corporation* determines that a particular currency:

- (i) should be upgraded, because it now satisfies the criteria set out in subsection 5461(1) for a currency group other than its current currency group, or
- (ii) should be downgraded, because it no longer satisfies its current currency group criteria as set out in subsection 5461(1),

The *Corporation* shall recommend for approval its proposed upgrade or downgrade to the *Corporation's* Financial and Operations Advisory Section. Upon the *Corporation's* Financial and Operations Advisory Section approval, the *Corporation* shall notify *Dealer Members* of the upgrade or downgrade.

5462. Spot risk margin rate

- (1) **Minimum rates -** The minimum spot risk margin rates for each Currency Group are as follows:

Minimum spot risk margin required as a percentage of market value of the foreign exchange position			
Currency Group			
1	2	3	4

Corporation Investment Dealer and Partially Consolidated Rules

Minimum spot risk margin rate	1.00%	3.00%	10.00%	25.00%
-------------------------------	-------	-------	--------	--------

- (2) **Spot price volatility levels** - To monitor the volatility of each Group 1, 2 or 3 currency, the Canadian dollar equivalent closing price on each of the four trading days succeeding the "base day" is compared to the base day closing price. The first of four succeeding trading days on which the percentage change in price (negative or positive) between the closing price on the succeeding day and the closing price on the base day is greater than the spot risk margin rate prescribed for the particular currency in subsection 5460(1) is designated an "offside base day". If an offside base day has been designated, the offside base day is designated the base day for the purpose of making further base day closing price comparisons.

If the number of offside base days during any 60 trading day period is greater than three, the currency is deemed to have exceeded the volatility threshold of the currency group.

If the volatility of a Group 1, 2 or 3 currency exceeds the volatility threshold, the individual currency spot risk margin rate is increased by increments of 10% until the application of the increased margin rate would result in no more than two offside days during the preceding 60 trading days. The increased margin rate shall apply for a minimum of 30 trading days and is automatically decreased to the margin rate otherwise applicable when after such 30 trading day period the volatility of the currency is less than the volatility threshold.

The *Corporation* is responsible for determining the required increase or decrease in foreign exchange spot risk margin rates under this subsection 5462(2).

5463. Spot risk margin requirement

- (1) The spot risk margin requirement applies to all *monetary assets and liabilities*, regardless of *term to maturity*, and must be calculated as:

$$\text{net long (short) foreign exchange position} \quad \times \quad \text{spot risk margin rate}$$

- (2) The spot risk margin requirement must be converted to Canadian dollars at the current *spot exchange rate*.

5464. Term risk margin requirement

- (1) The term risk margin requirement applies to all *monetary assets or liabilities* with a *term to maturity* of over two *business days* and must be calculated for each individual asset and liability as:

$$\text{foreign exchange position} \quad \times \quad \text{term risk margin rate for the position}$$

- (2) The term risk margin requirement must be converted to Canadian dollars at the current *spot exchange rate*.

5465. Maximum security margin requirement

- (1) The sum of:
- (i) the spot risk margin requirement,
 - (ii) the term risk margin requirement, and
 - (iii) the security margin requirement as determined elsewhere in these Rules,

must not exceed 100% of the *market value* of the security.

5466. Foreign exchange position offsets for Dealer Members

- (1) A *Dealer Member* must calculate *Dealer Member inventory margin* and *client margin* for *foreign exchange positions* according to the currency groups and rates in subsection 5460(1).
- (2) If a *Dealer Member* has a *monetary asset* and *monetary liability* in the same currency, the term risk margin requirement may be netted according to the following table:

Dealer Member position	Term risk margin requirement
(i) <i>Monetary asset</i> and <i>monetary liability</i> , both with a <i>term to maturity</i> of 2 years or less	Term risk margin requirement for both positions may be netted
(ii) <i>Monetary asset</i> and <i>monetary liability</i> , both with a <i>term to maturity</i> of over 2 years	Term risk margin requirement for both positions is the greater of term risk margin requirement for the <i>monetary asset</i> and the <i>monetary liability</i> .
(iii) <i>Monetary asset</i> (<i>monetary liability</i>) with a <i>term to maturity</i> of 2 years or less and <i>monetary liability</i> (<i>monetary asset</i>) with a <i>term to maturity</i> of over 2 years where difference in the terms to maturity is 180 days or less.	Term risk margin requirement for both positions may be netted

- (3) If a *Dealer Member* has a *monetary asset* and a *monetary liability* in the same currency group and one of the positions has a *term to maturity* of 2 years or less and the other has a *term to maturity* of more than 2 years, the term risk margin requirement for the two positions need not be greater than the following:

Currency Group			
1	2	3	4
<i>Market value</i> of positions offset	<i>Market value</i> of positions offset	<i>Market value</i> of positions offset	<i>Market value</i> of positions offset
x	x	x	x
5.00%	10.00%	20.00%	50.00%

5467. Alternative calculation approach for Dealer Member foreign exchange positions

- (1) As an alternative to the foreign exchange margin requirement determined under sections 5463 through 5466 for futures and forward contract inventory positions denominated in a currency which has a currency *futures contract* which trades on a futures exchange, the foreign exchange margin requirement may be calculated as follows.
 - (i) **Futures contracts** - *Foreign exchange positions* consisting of *futures contracts* may be margined at the margin rates prescribed by the futures exchange on which the *futures contracts* are listed.
 - (ii) **Forward contracts offsets** - Forward contract positions which are not denominated in Canadian dollars may be margined as follows:

- (a) the margin requirement is the greater of the requirement determined under sections 5463 through 5466 on each of the two positions,
 - (b) two forward contracts held by a *Dealer Member* which have one currency common to both contracts, are for the same value date, and the amount of the common currency positions are equal and offsetting, may be treated as a single contract for the purposes of sub-clause 5467(1)(ii)(b).
- (iii) **Futures and forward contract offsets** - Futures and forward contract positions which are not denominated in Canadian dollars may be margined as follows:
- (a) (I) the margin requirement is the greater of the requirement determined under sections 5463 through 5466 on each of the two positions,
 - (II) margin rates applicable to unhedged positions under paragraph 5467(1)(iii)(a)(I) are the rates established by sections 5461 through 5466 and not the rates prescribed by the futures exchange on which the *futures contracts* are listed,
- (b) two forward contracts held by a *Dealer Member* which have one currency common to both contracts, are for the same value date, and the amount of the common currency positions are equal and offsetting, may be treated as a single contract for the purposes of sub-clause 5467(1)(iii)(b).

5468. Client account margin requirements

- (1) The minimum *client account margin* requirements for *foreign exchange positions* are the aggregate of the spot risk margin requirement and term risk margin requirement calculated for each position provided that:
- (i) Where the positions are held in an account of:
 - (a) an *acceptable institution*, no margin is required, or
 - (b) an *acceptable counterparty* or a *regulated entity*, margin is calculated on a mark-to-market basis.
 - (ii) The margin required in respect of *foreign exchange positions* (excluding cash balances) held in the accounts of clients who are classified as other counterparties, as defined in Form 1, which are denominated in a currency other than the currency of the account, is the aggregate of the security margin requirement and the foreign exchange margin requirement, provided that where the margin rate applicable to the security is greater than the spot risk margin rate, the foreign exchange margin requirement is nil. The sum of the security margin requirement and the foreign exchange margin requirement shall not exceed 100%.
 - (iii) Listed *futures contracts* are margined in the same manner as prescribed in section 5790.

5469. Foreign exchange concentration charge

- (1) In respect of any Group 2, Group 3 or Group 4 currency, a concentration charge as calculated in subsection 5469(2) may apply.
- (2) The concentration charge that applies for any Group 2, Group 3 or Group 4 currency, is any excess of the aggregate of the foreign exchange margin provided under sections 5461 through

Corporation Investment Dealer and Partially Consolidated Rules

5468 on a *Dealer Member's monetary assets and monetary liabilities* and the foreign exchange margin on client accounts over 25% of the firm's net allowable assets net of minimum capital (as determined for the purposes of Form 1) as determined on a currency by currency basis.

SECURITIES AND RELATED INSTRUMENTS**

5601. Introduction

- (1) Rule 5600 addresses the margin treatment of security positions that comprise reduced-risk offset strategies. The margin requirements for these strategies are generally less than if the positions are margined separately. Reduced margin in some cases is available for both *Dealer Member* inventory and client account offset strategies and in other cases is available for only *Dealer Member* inventory offset strategies.
- (2) The order of subjects in Rule 5600 is:
 - (i) *Dealer Member* inventory and client account offset strategies involving:
 - (a) *debt securities*:
 - (I) government *debt securities* [sections 5610 through 5618],
 - (II) commercial and corporate *debt securities* [sections 5620 through 5624], and
 - (III) government *debt securities* and commercial and corporate *debt securities* [sections 5630 through 5631],
 - (b) convertible and *exercisable securities*:
 - (I) *convertible securities* [sections 5640 through 5644],
 - (II) *capital shares* [sections 5650 to 5655], and
 - (III) warrants, rights, *installment receipts* and other *exercisable securities* [sections 5660 through 5663],and
 - (ii) offsets only available for *Dealer Member* inventory positions:

- (ii) is a party to another offsetting *interest rate swap* entitling it to receive (or requiring it to pay) a fixed (or floating) interest rate amount calculated with reference to the same notional amount, denominated in the same currency and within the same *maturity band* for margin purposes as the *interest rate swap* referred to in clause 5680(1)(i),

the two positions in clauses 5680(1)(i) and 5680(1)(ii) may be offset and the minimum margin required for both positions may be computed as the net of the *normal margin required* for each position, provided that the *normal margin required* on the *fixed interest rate* payment (or receipt) component position may only be offset against the *normal margin required* on the *fixed interest rate* receipt (or payment) component position, and the *normal margin required* on the *floating interest rate* payment (or receipt) component position may only be offset against the *normal margin required* on the *floating interest rate* receipt (or payment) component position.

the two positions in clauses 5681(1)(i) and 5681(1)(ii) may be offset and the minimum margin required for both positions may be computed as the net of the *normal margin required* for each position. Any margin requirement calculated for the separate *floating interest rate* receipt (or payment) component position will continue to be required unless that position separately qualifies for the offset set out in subsection 5681(2).

(2) Offset involving floating interest rate swap component and federal government debt securities -

Where a *Dealer Member*:

(b) since, due to the features inherent in the long position in the *underlying security* or basket of securities or the market on which the *underlying security* or basket of securities trades, the realization value of the long position in the *underlying security* or basket of securities is determinable at the time the *total performance swap* is to expire and this value will be used as the closeout price for the swap,

or

(iv) 20% of the *normal margin required* on the long position in the *underlying security* or basket of securities where sell-out risk relating to the offset has not been mitigated.

- (3) **Offset involving long total performance swap component position and short underlying security position** - Where a *Dealer Member*:

RULE 5700 | MARGIN REQUIREMENTS FOR OFFSET STRATEGIES INVOLVING DERIVATIVE PRODUCTS

5701. Introduction

(1) Rule 5700 addresses the margin treatment of *derivative* product positions that comprise reduced-risk offset strategies. The margin requirements for these strategies are generally less than if the positions are margined separately. Reduced margin in some cases is available for both *Dealer Member* inventory and client account offset strategies and in other cases is available for only *Dealer Member* inventory offset strategies. The *derivative* products covered in Rule 5700 include *exchange-traded options* whose underlying interests include:

- equities
- indexes
- *index participation units*
- debt
- currencies

and *over-the-counter options, futures contracts and futures contract options*.

(2) The order of subjects in Rule 5700 is:

- (i) general requirements and summary reference tables [sections 5710 through 5715],
- (ii) *exchange-traded options*,
 - (a) unhedged *option* positions [sections 5720 through 5721],
 - (b) hedged *option* positions [section 5725],
 - (c) *option* spreads and combinations [sections 5730 through 5740],
 - (d) security and *option* combinations and conversions [sections 5750 through 5755],
 - (e) futures and *options* combinations and conversions [sections 5760 through 5765],
 - (f) basket, participation unit and futures combinations [sections 5770 through 5772], and
 - (g) cross index offsets and the optional use of the Standard Portfolio Analysis methodology [sections 5775 and 5776],
- (iii) *over-the-counter options* [section 5780], and
- (iv) *futures contracts and futures contract options* [section 5790].

5712. Requirements for option offset strategies

- (1) For all client account *option* offset strategies involving both short *option* and long *option* positions, the short option position must expire on or before the date of expiry of the long *option* position.

RULE 7200 | TRANSACTION REPORTING FOR DEBT SECURITIES

7201. Introduction

- (1) Rule 7200 requires *Dealer Members* to report information about each of their transactions (and the transactions of any *affiliate* that is a *Government Securities Distributor* (defined in section 7202)) in *debt securities* to the *Corporation* through a system maintained by the *Corporation*.
- (2) The reported transaction data required by Rule 7200 is used in the *Corporation's* surveillance of the *debt securities* market to identify potential market abuses such as violations of the fair pricing requirements of section 3125, insider trading and market manipulation. It also supports the *Corporation's* general inspection and enforcement activities, rulemaking, and other regulatory functions. The trade data received pursuant to Rule 7200 enables appropriate oversight to ensure the integrity of over-the-counter *debt securities* market trading and strengthen standards of investor protection.
- (3) For the purposes of Rule 7200, fact that a security was issued in another country or denominated in a foreign currency does not disqualify it from being a *debt security*.

7202. Definitions

- (1) The following terms have the meaning set out below when used in Rule 7200:

“authorized agent”	A <i>Dealer Member</i> or other business entity that has successfully enrolled with the <i>Corporation</i> under section 7205 to submit debt securities transaction reports on behalf of <i>Dealer Members</i> .
“CUSIP”	Committee on Uniform Securities Identification Procedures.
“file receipt”	An electronic acknowledgement that confirms the transaction reporting data file has been successfully transmitted.
“Government Securities Distributor”	An entity that has been given notice of its status as such by the Bank of Canada and applies to those bidders eligible to participate directly in the tender process at Government of Canada auctions.
“ISIN”	International Securities Identification Number.
“MTRS 2.0”	The Market Trade Reporting System operated by the <i>Corporation</i> for reporting <i>debt securities</i> transactions.
“MTRS 2.0 Enrollment Form”	The form filed by a <i>Dealer Member</i> with the <i>Corporation</i> to supply contact and other information that may be needed by the <i>Corporation</i> in connection with the <i>Dealer Member's</i> reporting of <i>debt securities</i> transactions. An MTRS 2.0 Enrollment Form must also be filed by any party seeking to act as an <i>authorized agent</i> for a <i>Dealer Member</i> in reporting transaction data to <i>MTRS 2.0</i> .
“riskless principal trade”	A trade in a <i>debt security</i> that involves two offsetting orders (buy and sell) that are filled through transactions executed against a <i>Dealer Member's</i> trading or other proprietary account, with the execution of one of the orders dependent upon the receipt or execution of the other. A riskless principal trade results in two offsetting principal transactions on the <i>Dealer Member's</i> books, rather than one agency transaction. A <i>Dealer Member</i> typically performs a riskless principal trade to fill a client order with an offsetting transaction in the market or with another client.

<p>“special condition indicator”</p>	<p>A code used on a transaction report to indicate that the transaction has certain attributes. Among other uses, the special condition indicator helps to identify transactions that may be priced differently than other transactions in the same issue (for instance, a primary market transaction subject to a fixed price offering agreement). Special condition indicators are also used to identify <i>repurchase agreement</i> transactions, transactions that involve parties related to the <i>Dealer Member</i> executing the transaction, and certain other conditions that may apply to a transaction and that are relevant to the regulatory and market surveillance purposes of Rule 7200.</p>
--------------------------------------	---

7203. Reporting requirements

- (1) Every *Dealer Member* must report each of its transactions in *debt securities* (including *repurchase agreement* transactions or *reverse repurchase agreement* transactions) and the transactions in *debt securities* (including *repurchase agreement* transactions or *reverse repurchase agreement* transactions) of any *affiliate* that is a *Government Securities Distributor*, to the *Corporation* within the timeframes and in the manner specified in Rule 7200, subject to the exceptions stated below in subsection 7203(2).
