BC NOTICE 13-701

Mutual Reliance Review System – Memorandum of Understanding

This Notice replaces NIN#99/37 and contains the Memorandum of Understanding (the “MOU”), relating to the Mutual Reliance Review System. The Chairs of all of the Canadian securities regulatory authorities in Canada signed the MOU in October 1999 and it became effective on January 1, 2000.

April 25, 2001

Brent W. Aitken
Member

Ref: NINI#99/37

This Notice may refer to other documents. These documents can be found at the B.C. Securities Commission public website at www.bpsc.bc.ca in the Commission Documents database or the Historical Documents database.

Memorandum of Understanding

Mutual Reliance Review System

1. PURPOSE

The investor protection regimes contemplated by securities legislation in Canada and commodity futures legislation are substantially similar. Consequently, filings are often made in several jurisdictions in Canada under provisions of securities legislation and commodity futures legislation that are the same or substantially similar. In most cases, the securities regulatory authorities apply similar review and approval processes to these filings.

The Canadian securities regulatory authorities recognize the need to improve the efficiency of the Canadian capital markets by streamlining the review of filings to reduce the regulatory burden for issuers, registrants and applicants for discretionary relief. Accordingly, the Canadian securities regulatory authorities have agreed to create the Mutual Reliance Review System ("MRRS") for filings made in multiple jurisdictions, which system will reduce unnecessary duplication in the review of such filings. Implementing the MRRS will facilitate over time the harmonization of legislative requirements and administrative practices across jurisdictions and will provide consistent treatment of filers in Canada.

Mutual reliance means that, in exercising discretion under securities legislation and commodity futures legislation, the decision-maker in a particular securities regulatory authority is prepared to rely primarily on the analysis and review of the staff of another securities regulatory authority.

The Canadian securities regulatory authorities have reached the understanding set out in this Memorandum of Understanding ("MOU") with respect to the procedures they will follow for the review of filings made in more than one jurisdiction in Canada. Under the MRRS, a filer will file certain documents with each relevant jurisdiction, will generally deal with only one securities regulatory authority and will receive a document from that securities regulatory authority that will confirm the decision of all relevant jurisdictions that have not opted out of the MRRS for that filing.

2. INTERPRETATION

(1) Definitions - In the MOU

"**CSA committees**" means the committees identified in each policy or rule as being responsible for the MRRS for that category of filing;

"**commodity futures legislation**" means The Commodity Futures Act in Manitoba, the Commodity Futures Act in Ontario, and any other legislation in Canada concerning commodity futures or exchange contracts;

"**filer**" means a person or company that is required to file materials;

"**MOU**" means this Memorandum of Understanding;

"**MRRS**" means the Mutual Reliance Review System established by the MOU;

"MRRS decision document" means the document issued by the principal regulator that evidences that a determination with respect to materials filed under the MRRS has been made by the principal regulator and the non-principal regulators that have not opted out;

"materials" means the documents and fees required to be sent by a filer under each system referred to in the policies or rules listed in Appendix A, as amended from time to time;

"non-principal regulator" means, in respect of a particular filing, a securities regulatory authority or regulator, as the context requires, with which materials are filed other than the principal regulator;

"participating principal regulator" means, in respect of each system referred to in the policies or rules listed in Appendix A, a securities regulatory authority or regulator, as the context requires, of a province or territory that has agreed to act as principal regulator;

"policy" means each of the policies listed in Appendix A to the MOU which describe the procedures for each category of filing, and which are collectively referred to as "policies";

"principal regulator" in respect of a filer means the securities regulatory authority or regulator, as the context requires, designated in accordance with Section 9;

"rule" means each of the rules listed in Appendix A to the MOU and which are collectively referred to as "rules";

(2) Interpretation - Terms used in the MOU that are defined or interpreted in National Instrument 14-101 should be interpreted in accordance with that instrument.

3. RETENTION OF DISCRETION

The MRRS involves no surrender of jurisdiction by any securities regulatory authority. Each securities regulatory authority retains and will exercise its statutory discretion with respect to all materials filed pursuant to the MRRS.

4. SCOPE

The MOU sets out the principles governing the implementation and operation of the MRRS. The MRRS applies to the categories of filings referred to in the policies or rules listed in Appendix A, as amended from time to time.

5. CHANGES IN A PARTICIPATING PRINCIPAL REGULATOR'S REVIEW

The Canadian securities regulatory authorities acknowledge that the MRRS is premised on the review procedures in place in each of the participating principal regulators at the time of signature of the MOU. A participating principal regulator may thereafter adopt and implement different review procedures that would apply to filings under the MRRS. Any participating principal regulator making substantive changes to its existing review procedures agrees to notify in advance the relevant CSA committee and any other securities regulatory authority that do not have membership on such CSA committee prior to amending its procedures and will provide sufficient time and information to the relevant CSA committee for it to assess the proposed changes and to determine the appropriate way to resolve any resulting issues.

Alternatively, a participating principal regulator may lose personnel such that it is no longer able to discharge its responsibility as a principal regulator under the MRRS. Where through the loss of personnel a participating principal regulator is unable to discharge its responsibility as a principal regulator, it shall notify the relevant CSA committee of this situation.

6. CONSULTATION

The CSA committees will be responsible for promoting consistency and communication among the securities regulatory authorities in their review of materials and coordinating any changes or amendments to the MRRS. In addition, each relevant CSA committee will meet at least semi-annually to review and enhance as necessary the operation of the MRRS and to identify and discuss issues that have arisen during that period. The relevant CSA committee will report to the CSA Chairs on an annual basis on the operation of the MRRS.

7. STAFF DEVELOPMENT AND TRAINING

Each participating principal regulator is responsible for ensuring that it has staff with adequate expertise to review materials filed under the MRRS.

In order to support the MRRS, it will be necessary to provide an opportunity for staff of each securities regulatory authority to acquire, maintain and upgrade skills, standardize review processes and develop common approaches to issues. To this end, the relevant CSA committee will be responsible for monitoring the MRRS and developments under securities legislation, securities directions and commodity futures legislation and will coordinate appropriate training seminars or materials, as needed. Staff of the participating principal regulators will participate in the seminars. Training seminars will also be available to staff of other securities regulatory authorities.

To give recognition to the objectives of the MRRS to simplify and facilitate the use of the regulatory system and to more effectively employ the human and other resources of the CSA, the securities regulatory authorities may endeavour to coordinate the utilization of personnel among the securities regulatory authorities. This may be effected by arrangements between two or more securities regulatory authorities whereby the staff of one securities regulatory authority may be utilized by another securities regulatory authority in fulfilling its obligations as principal regulator. Such arrangements may assist in maintaining staff expertise in all participating principal regulators and enhancing experienced human resources availability to the participating principal regulators.

8. FUNDING

Each securities regulatory authority agrees to provide adequate funding to support the consultation and training components of the MRRS. Costs would include but not be limited to travel and related costs, preparation of materials for and participation in initiatives contemplated by the MOU.

9. PRINCIPAL REGULATOR

9.1 Assigning the Principal Regulator

The participating principal regulators referred to in the relevant policy or rule have agreed to act as principal regulator in respect of materials filed pursuant to the MRRS. The principal regulator in

respect of particular materials filed under the MRRS will be determined by the filer in accordance with the criteria set out in the relevant policy or rule.

In respect of a particular filing under the MRRS, where the filer has incorrectly identified a non-principal regulator as the principal regulator, such non-principal regulator will decline to act as principal regulator.

9.2 Applications by Filer for a Change of Principal Regulator

A filer may apply for a change of principal regulator where it believes that its principal regulator is not the appropriate securities regulatory authority to act as principal regulator. The application must be made to the filer's principal regulator and the securities regulatory authority which the filer is requesting to act as principal regulator (the "requested regulator"). The principal regulator and the requested regulator will consider the application in accordance with the relevant policy or rule and will notify the filer in writing of the disposition of the application.

9.3 Redesignation of Principal Regulator

Where, in respect of a filer, either:

- (a) the designation of the principal regulator is unclear;
- (b) the principal regulator determines that another securities regulatory authority should act as principal regulator; or
- (c) another securities regulatory authority proposes that it act as principal regulator;

the filer shall be advised of the proposed designation which was determined by the relevant securities regulatory authorities as more appropriate and shall be given an opportunity to make submissions with respect to the proposed designation.

9.4 Notification to CSA Committees

The relevant CSA committee will be responsible for establishing and monitoring the procedures for changing a filer's principal regulator and for promoting consistency of decisions. To this end, the securities regulatory authorities will advise the relevant CSA committee of all decisions rendered pursuant to this section and the reasons for such decisions.

10. MRRS PROCEDURES

10.1 Filing

The materials shall be filed with the principal regulator and each of the non-principal regulators in accordance with the procedures contained in the relevant policy or rule.

10.2 Review

The principal regulator is responsible for reviewing the materials in accordance with its securities legislation, securities directions and commodity futures legislation, review procedures, analysis and precedents. The non-principal regulators may conduct a review intended to identify any material concerns with respect to the materials. In the event a non-principal regulator has identified specific material issues with respect to materials filed under the MRRS, which, if left

unresolved, would cause the non-principal regulator to opt out of the MRRS in respect of such materials, it shall advise the principal regulator of the issues.

10.3 Opting Out of the MRRS

Each non-principal regulator is entitled to opt out of the MRRS in respect of particular materials prior to the issuance of a MRRS decision document and in accordance with the procedures contained in the relevant policy or rule. Any non-principal regulator choosing to opt out of the MRRS will notify the filer, the principal regulator, and all other non-principal regulators. The non-principal regulator that has opted out shall provide written reasons for its decision to opt out to the filer. The non-principal regulator that has opted out shall also advise the principal regulator and the other non-principal regulators of its reasons for opting out. The non-principal regulator that has opted out of the MRRS will conduct its own review of the materials, deal directly with the filer, make a determination with respect to the materials and, when appropriate, issue its own decision document.

A non-principal regulator that has opted out of the MRRS for a particular filing may opt back in to the MRRS in accordance with the procedures contained in the relevant policy or rule and by notifying the filer, the principal regulator, and the other non-principal regulators.

Reasons for opting out shall be forwarded to the relevant CSA committee.

10.4 MRRS Decision Document

Once a decision has been made to issue a MRRS decision document, it is the responsibility of the principal regulator to do so.

Notwithstanding the issuance of a MRRS decision document, certain non-principal regulators will issue their own decision document in respect of materials filed under the MRRS.

11. WITHDRAWAL FROM MEMORANDUM OF UNDERSTANDING

A securities regulatory authority may withdraw from the understanding set out in the MOU by providing 60 days written notice to the other securities regulatory authorities.

12. APPENDIX A

Appendix A to the MOU provides a list of the relevant policies or rules for each category of filing. Amendments to the policies or rules may be made or policies or rules may be added to the list in Appendix A upon the written confirmation by the regulators of each of the jurisdictions. Where a proposed amendment or addition may have a significant impact on the MRRS or on the filer, the relevant CSA committee will recommend to the Canadian securities regulatory authorities that the proposed amendment or addition be published for comment.

The provisions in the rule and policies listed in Appendix A relating to the determination and change of principal regulator are deemed to be part of the MOU for the Commission des valeurs mobilières du Québec.

13. COUNTERPARTS

The MOU may be executed in several counterparts, each of which when so executed shall be deemed to be an original, and such counterparts together shall constitute one and the same instrument.

The MOU supersedes the Memorandum of Understanding for the Expedited Review of Short Form Prospectuses and Renewal AIFs dated December 18, 1996.

14. EFFECTIVENESS

The MOU will be effective on January 1, 2000.

SIGNED AS OF OCTOBER 14, 1999
