3.6 Repealed (September 19, 2005)

PART 4 MEASUREMENT

4.1 Repealed (December 30, 2010)

4.2 Consistency in Dates - The date or period with respect to which the effects of an event or transaction are recorded in a reporting issuer's annual financial statements must be the same as the date or period with respect to which they are first reflected in the reporting issuer's annual reserves data disclosure under Part 2.

5.1 Application of Part 5 - This Part applies to disclosure made by or on behalf of a reporting issuer

(a) to the public;

(i) disclose the effective date of the estimate;

(ii) have been prepared or audited by a qualified reserves evaluator or auditor;

(iii) have been prepared or audited in accordance with the COGE Handbook;

(iv) have been made assuming that development of each property in respect of which the estimate is made will occur, without regard to the likely availability to the reporting issuer of funding required for that development; and

(v) in the case of estimates of possible reserves or related future net revenue disclosed in writing, also include a cautionary statement that is proximate to the estimate to the following effect:

“Possible reserves are those additional reserves that are less certain to be recovered than probable reserves. There is a 10% probability that the quantities actually recovered will equal or exceed the sum of proved plus probable plus possible reserves.”;

(b) for the purpose of determining whether reserves should be attributed to a particular undrilled property, reasonably estimated future abandonment and reclamation costs related to the property must have been taken into account;

(c) in disclosing aggregate future net revenue the disclosure must comply with the requirements for the determination of future net revenue specified in Form 51-101F1; and

(d) the disclosure must be consistent with the corresponding information, if any, contained in the statement most recently filed by the reporting issuer with the securities regulatory authority under item 1 of section 2.1, except to the extent that the statement has been supplemented or superseded by a
5.3 Classification of Reserves and of Resources Other than Reserves

(1) Reserves or resources other than reserves must be disclosed using the applicable terminology and categories set out in the COGE Handbook and must be classified in the most specific category of reserves or resources other than reserves in which the reserves or resources other than reserves can be classified.

(2) Despite subsection (1), where the applicable terminology set out in the COGE Handbook for the disclosure of resources is total petroleum initially-in-place, discovered petroleum initially-in-place or undiscovered petroleum initially-in-place, the reporting issuer may depart from the applicable terminology by substituting, for the word “petroleum”, reference to the specific product type of the resource.

5.4 Oil and Gas Reserves and Sales - Disclosure of reserves or of sales of oil, gas or associated by-products must be made only in respect of marketable quantities, reflecting the quantities and prices for the product in the condition (upgraded or not upgraded, processed or unprocessed) in which it is to be, or was, sold.

5.5 Natural Gas By-Products - Disclosure concerning natural gas by-products (including natural gas liquids and sulphur) must be made in respect only of volumes that have been or are to be recovered prior to the point at which marketable gas is measured.

5.6 Future Net Revenue Not Fair Market Value - Disclosure of an estimate of future net revenue, whether calculated without discount or using a discount rate, must include a statement to the effect that the estimated values disclosed do not represent fair market value.

5.7 Consent of Qualified Reserves Evaluator or Auditor

(1) A reporting issuer must not disclose a report referred to in item 2 of section 2.1 that has been delivered to the board of directors of the reporting issuer by a qualified reserves evaluator or auditor pursuant to an appointment under section 3.2, or disclose information derived from the report or the identity of the qualified reserves evaluator or auditor, without the written consent of that qualified reserves evaluator or auditor.

(2) Subsection (1) does not apply to

(a) the filing of that report by a reporting issuer under section 2.1;

(b) the use of or reference to that report in another document filed by the reporting issuer under section 2.1; or

---

3 “Material change” has the meaning ascribed to the term under securities legislation of the applicable jurisdiction.
(c) the identification of the report or of the qualified reserves evaluator or auditor in a news release referred to in section 2.2.

5.8 Disclosure of Less Than All Reserves - If a reporting issuer that has more than one property makes written disclosure of any reserves attributable to a particular property

(a) the disclosure must include a cautionary statement to the effect that

“The estimates of reserves and future net revenue for individual properties may not reflect the same confidence level as estimates of reserves and future net revenue for all properties, due to the effects of aggregation”; and

(b) the document containing the disclosure of any reserves attributable to one property must also disclose total reserves of the same classification for all properties of the reporting issuer in the same country (or, if appropriate and not misleading, in the same foreign geographic area).

5.9 Disclosure of Resources Other than Reserves

(1) If a reporting issuer discloses anticipated results from resources which are not currently classified as reserves, the reporting issuer must also disclose in writing, in the same document or in a supporting filing:

(a) the reporting issuer’s interest in the resources;

(b) the location of the resources;

(c) the product types reasonably expected;

(d) the risks and the level of uncertainty associated with recovery of the resources; and

(e) in the case of unproved property, if its value is disclosed,

(i) the basis of the calculation of its value; and

(ii) whether the value was prepared by an independent party.

(2) If disclosure referred to in subsection (1) includes an estimate of a quantity of resources other than reserves in which the reporting issuer has an interest or intends to acquire an interest, or an estimated value attributable to an estimated quantity, the estimate must:

(a) have been prepared or audited by a qualified reserves evaluator or auditor;

(b) have been prepared or audited in accordance with the COGE Handbook;

(c) be classified in the most specific category of resources other than reserves, as required by section 5.3; and
(d) be accompanied by the following information:

(i) a definition of the resources category used for the estimate;

(ii) the effective date of the estimate;

(iii) the significant positive and negative factors relevant to the estimate;

(iv) in respect of contingent resources, the specific contingencies which prevent the classification of the resources as reserves; and

(v) a cautionary statement that is proximate to the estimate to the effect that:

(A) in the case of discovered resources or a subcategory of discovered resources other than reserves:

“There is no certainty that it will be commercially viable to produce any portion of the resources.”; or

(B) in the case of undiscovered resources or a subcategory of undiscovered resources:

“There is no certainty that any portion of the resources will be discovered. If discovered, there is no certainty that it will be commercially viable to produce any portion of the resources.”

(3) Paragraphs (1)(d) and (e) and subparagraphs (2)(d)(iii) and (iv) do not apply if:

(a) the reporting issuer includes in the written disclosure a reference to the title and date of a previously filed document that complies with those requirements; and

(b) the resources in the written disclosure, taking into account the specific properties and interests reflected in the resources estimate or other anticipated result, are materially the same resources addressed in the previously filed document.

5.10 Analogous Information

(1) Sections 5.2, 5.3, 5.9 and 5.16 do not apply to the disclosure of analogous information provided that the reporting issuer discloses the following:

(a) the source and date of the analogous information;

(b) whether the source of the analogous information was independent;

(c) if the reporting issuer is unable to confirm that the analogous information was prepared by a qualified reserves evaluator or auditor or in accordance
with the COGE Handbook, a cautionary statement to that effect proximate to the disclosure of the analogous information; and

(d) the relevance of the analogous information to the reporting issuer’s oil and gas activities.

(2) For greater certainty, if a reporting issuer discloses information that is an anticipated result, an estimate of a quantity of reserves or resources, or an estimate of value attributable to an estimated quantity of reserves or resources for an area in which it has an interest or intends to acquire an interest, that is based on an extrapolation from analogous information, sections 5.2, 5.3, 5.9 and 5.16 apply to the disclosure of the information.

5.11 Net Asset Value and Net Asset Value per Share - Written disclosure of net asset value or net asset value per share must include a description of the methods used to value assets and liabilities and the number of shares used in the calculation.

5.12 Reserve Replacement - Written disclosure concerning reserve replacement must include an explanation of the method of calculation applied.

5.13 Netbacks - Written disclosure of a netback must

(a) Repealed (December 28, 2007);

(b) reflect netbacks calculated by subtracting royalties and operating costs from revenues; and

(c) state the method of calculation.

5.14 BOEs and McfGEs - If written disclosure includes information expressed in BOEs, McfGEs or other units of equivalency between oil and gas

(a) the information must be presented

(i) in the case of BOEs, using BOEs derived by converting gas to oil in the ratio of six thousand cubic feet of gas to one barrel of oil (6 Mcf:1 bbl);

(ii) in the case of McfGEs, using McfGEs derived by converting oil to gas in the ratio of one barrel of oil to six thousand cubic feet of gas (1 bbl:6 Mcf); and

(iii) with the conversion ratio stated;

(b) if the information is also presented using BOEs or McfGEs derived using a conversion ratio other than a ratio specified in paragraph (a), the disclosure must state that other conversion ratio and explain why it has been chosen;
(c) if the information is presented using a unit of equivalency other than \( BOEs \) or \( McfGEs \), the disclosure must identify the unit, state the conversion ratio used and explain why it has been chosen; and

(d) the disclosure must include a cautionary statement to the effect that:

“BOEs [or ‘McfGEs’ or other applicable units of equivalency] may be misleading, particularly if used in isolation. A BOE conversion ratio of \( 6 \text{ Mcf}: 1 \text{ bbl} \) [or ‘An McfGE conversion ratio of \( 1 \text{ bbl}: 6 \text{ Mcf} \)] is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead”.

5.15 Finding and Development Costs - If written disclosure is made of finding and development costs:

(a) those costs must be calculated using the following two methods, in each case after eliminating the effects of acquisitions and dispositions:

\[
\begin{align*}
\text{Method 1:} & \, \quad \frac{a+b+c}{x} \\
\text{Method 2:} & \, \quad \frac{a+b+d}{y}
\end{align*}
\]

where 
- \( a = \text{exploration costs} \) incurred in the most recent financial year
- \( b = \text{development costs} \) incurred in the most recent financial year
- \( c = \text{the change during the most recent financial year in estimated future development costs relating to proved reserves} \)
- \( d = \text{the change during the most recent financial year in estimated future development costs relating to proved reserves and probable reserves} \)
- \( x = \text{additions to proved reserves during the most recent financial year, expressed in } BOEs \text{ or other unit of equivalency} \)
- \( y = \text{additions to proved reserves and probable reserves during the most recent financial year, expressed in BOEs or other unit of equivalency} \)

(b) the disclosure must include

(i) the results of both methods of calculation under paragraph (a) and a description of those methods;

(ii) if the disclosure also includes a result derived using any other method of calculation, a description of that method and the reason for its use;

(iii) for each result, comparative information for the most recent financial year, the second most recent financial year and the averages for the three most recent financial years;
(iv) a cautionary statement to the effect that:

“The aggregate of the exploration and development costs incurred in the most recent financial year and the change during that year in estimated future development costs generally will not reflect total finding and development costs related to reserves additions for that year”; and

(v) the cautionary statement required under paragraph 5.14(d).

5.16 Restricted Disclosure: Summation of Resource Categories

(1) A reporting issuer must not disclose a summation of an estimated quantity, or estimated value, of two or more of the following:

(b) contingent resources;
(c) prospective resources;
(d) the unrecoverable portion of discovered petroleum initially-in-place;
(e) the unrecoverable portion of undiscovered petroleum initially-in-place;
