2. *Subsection 4.2(1) is changed by replacing “SEDAR” wherever it occurs with “[Renewed System]”.*

3. *Subsection 4.2(11) is replaced with the following:*

(11) **Electronic transmission** – National Instrument 13-103 [*System Replacement Rule*] prescribes that each document that is required or permitted to be provided to a securities regulatory authority or regulator must be transmitted to the securities regulatory authority or regulator electronically through the [Renewed System].

The reference to a document includes any report, form, application, information, material and notice, as well as a copy thereof, and applies to documents that are required or permitted to be filed or deposited with, or delivered, furnished, sent, provided, submitted or otherwise transmitted to, a securities regulatory authority or regulator.

To reflect the phased implementation of the [Renewed System], the Appendix of National Instrument 13-103 [*System Replacement Rule*] sets out securities legislation under which documents are excluded from being filed or delivered in the [Renewed System].

In addition, SEDAR might not be able to accommodate large technical report files.
