SUMMARY OF OFFERING MEMORANDUM

The Issuer The issuer is Freightera Logistics Inc. a company incorporated under the British Columbia Business Corporations Act [SBC 2002] c.57 (the “Company”, “Issuer” or “Freightera”).

Registered Mark

Currency Unless otherwise stated, all monies in this Offering Memorandum are in Canadian Dollars.

Objective Pursuant to the terms of this Offering Memorandum, the Issuer intends to raise up to: \$3,039,999.60 through the issuance of its Common Shares (“Shares”), and through its Series A Units, Series B Units, and Series C Units offerings, which are subject to the following maximum offering amounts:

The maximum Offering for the Common Share offering is 1,333,333 Common Shares for gross proceeds of CAD \$1,599,999.60.

The maximum Offering for the Series A Unit is 500,000 Units for gross proceeds of CAD \$600,000.

The maximum Offering for the Series B Unit is 350,000 Units for gross proceeds of CAD \$420,000.

The maximum Offering for the Series C Unit is 350,000 Units for gross proceeds of CAD \$420,000.

Up to \$192,000 will be paid as selling commissions and Offering Expenses resulting in net proceeds of up to \$1,599,999.60. The Issuer will use the net proceeds for the purposes of continuing its development of technology, intellectual property portfolio, brand, strategic planning (including identifying potential partners for acquisition and integration into its business) and execution of its sales and marketing programs.

Investment Strategy Freightera has developed a comprehensive web-based application for the freight industry that solves numerous problems facing Shippers and Carriers in terms of overall efficiency, productivity, response time, price and service competitiveness, customer/vendor qualification, documentation standards, accounts payable, collections and pro-active customer service.

A large segment of the freight logistics industry continues to be burdened by use of the telephone, email, faxing and frustrating, poor response times. Freightera has met each of these challenges by integrating all the necessary functions into a single interactive web marketplace that in turn requires a minimum of initial data input from participating client Shippers. Freightera has already established a database comprising on over 16 billion (point-to-point) routes and their related price offerings from truck and intermodal Carriers across Canada and the U.S. This detailed information is kept current by way of an application programming interface (“API”) and other system update methods with each of the Carriers and made available in real time to commercial Shippers. When a manufacturer, wholesaler, distributor, retailer or any business has product to ship, they can quickly, simply and securely login to Freightera’s site, provide their basic shipment information and immediately receive a graphic response on their screen showing all the Carriers who can meet the desired availability, service standards, and vehicle profile along with the total inclusive cost. In this sense, Freightera may be thought of as ‘Expedia® for Freight’.

Freightera has competition in this space (see Item 2.2 *Our Business*), however, the Issuer believes there is no other service provider whose breadth of integrated functions may be ready to compete as efficiently.

Freightera's scope of offerings began in Eastern Canada and has grown in its first 45 months of operation to include all Provinces of Canada and south to the U.S. Its Carrier participation now includes over 600 LTL Carriers, including 17 of the top 25, adding millions of new routes. Initially, Freightera will continue to penetrate the trans-border and domestic U.S. opportunities as they represent an addressable continental market of approximately \$176 billion in freight spending annually, over 80 percent of which is via truck mode. However, further opportunities exist in future years as the application has been developed with a technology base that will allow a comparatively easy adaption to all modes, including rail, ocean and air with no geographical limitations.

Notes to the Q3, 2017 and 2017 financial statements summarizes how the Company has used funds raised during the 2016 and 2017 fiscal years according the categories in the table below. The following table discloses how the Company will use the available funds from this Offering assuming Minimum Offering and Maximum Offering:

Description of intended use of available funds listed in order of priority	Assuming Minimum Offering	Assuming Maximum Offering
Sales and Marketing	\$0	\$473,000
Product Development	\$0	\$542,000

Compensation for Insiders ¹	\$0	\$396,000
Total: Equal to G in the Funds table above	\$0	\$2,784,999.60

If less than the Maximum Offering is raised, the Issuer will likely spend less in each category.

Pursuant to the terms of this Offering, the Issuer intends to raise up to \$3,039,999.60 through the issuance of Units and Shares. Selling commissions and Offering Expenses will not exceed 12% in the aggregate and no one selling agent will receive a commission of more than 12% of the gross sale proceeds resulting in net proceeds of up to \$2,784,999.60. ¹ In the absence of significant profitable operations, Freightera will require up to 12 months compensation for key executive personnel in an amount not to exceed \$396,000. Payments to insiders are as follows: E. Beckwitt (CEO) \$120,000; Y. Ponarina (Vice President, Marketing) \$96,000; Theodore Snider (Vice President, Investor Relations) \$180,000.

other securities as payment of compensation under agency agreements as negotiated by the Issuer and may include broker warrants of up to 10% of gross proceeds from the sale of Units and/or Common Shares resulting directly from the agent's efforts converted to Units and/or Common Shares at the price that the Units and/or Common Shares are then currently being offered at an exercise price of \$1.20 per common share.

See Section 7: Compensation Paid to Sellers and Finders for details.

The Issuer will use the net proceeds for the purposes of continuing its sales, marketing, brand recognition, financial, legal and administrative infrastructure and product development, including through potential acquisitions. The geographical scope of operations will initially be concentrated on the North American market before any consideration of expanding services beyond the continent. Until required for the Issuer's purposes, the proceeds from this Offering will be invested only in securities of, or those guaranteed by, the Government of Canada or any Province of Canada or the Government of the U.S. or any State of the U.S., or in certificates of deposit or current/chequing or interest-bearing accounts of Canadian chartered banks or trust companies or U.S. banks. Any interest accrued on subscription funds will be solely for the account of the Issuer. See this section above for details on the use of funds.

Being in its early stages, the Issuer's staff are able to work virtually in any location and the Issuer's initial growth has been successfully accomplished this way. However, the Company plans to continue building its primary base in Vancouver, BC for the foreseeable future as its management believes that the majority of its future recruiting and technological opportunities are available in this region.

The Issuer currently has 14 full-time staff and 15 part-time staff (including consultants) in the following capacities:

	Full time	Part-time
Executive	1	1

2.2 Our Business

Product and Benefit

Freightera is a technology company in its fourth year since incorporation, operating an online freight brokerage marketplace servicing Shippers and Carriers, primarily in the truck and rail transportation sector across Canada and the U.S., with plans to expand to other modes in the near future. Its focus is to solve chronic and significant problems in the freight industry in 3 major areas:

- a. Shippers are frequently unable to find competitive rates, available space and a timely response when searching for both, whether dealing directly with Carriers, or Freight Brokers. The common routine for many is to make two or more phone calls, or email requests, or visit vendors' websites to communicate their specific need and then wait for a response, which is often not received within an acceptable time frame.
- b. Carriers are unable to distribute beneficial pricing and available space within a short time frame or to the desired range and number of potential Shippers and consequently operate with reduced load factors, creating both an economic challenge of attaining profitability and a significant negative environmental impact of additional greenhouse gas emissions (GHG).
- c. To the knowledge of the Company's management, there are few, if any central databases that can provide rates, availability and standardized documentation for the millions of routes covered each day with its related permutations and none that are readily as scalable for the global market.

Freightera's cloud-based application uses a database comprised of the tariffs and schedules of hundreds of Carriers, and eventually thousands of Carriers, which can be updated and uploaded in real time using Freightera's data transfer methods, configured for each Carrier. There is no limit on the number or size of Carriers that can be included, allowing for contributing combinations of those supplying national, regional, trans-border and equipment type services.

When a Shipper signs up to become a Freightera customer, they have the ability to enter a simple search using a Freightera website page for multiple, competitive freight rates and space availability for the specific origin, destination, type of required equipment, timeline and other conditions that suit their requirements. Freightera's system may find one or more matches, display the match or matches as quotes and if a quote is accepted, book the Transaction with the Carrier. Although Carriers and Shipper are both required to 'sign up' to use Freightera's marketplace, neither pays a membership or subscription fee.

Freightera is the principal for all transactions and takes the full risk for the transaction, to pay the carrier and collect from the shipper; the 'mark-up' is variable depending on the transaction details. Each carrier provides pre-quoted prices for "Lanes" and Freightera has a variable mark-up on those price quotes depending on the details of the transaction. For all Transactions, Freightera invoices the Shipper, collects the freight charges from the Shipper and in turn pays the Carrier the amount owed for the Transaction, net of Freightera's markup. Freightera's markup is the difference of the receipt amount from Shipper less payment to the Carrier for all their charges and this is Freightera's gross margin from the Transaction.

Transaction values vary according to size of shipment, commodity type and distance between pickup and delivery points. Typically, a single pallet of goods delivered within the same region may be as little as \$100 in revenue, offering \$25 in gross margin; alternately, a half truckload delivered from east to west coasts may be billed at \$5,000 or more, yielding a gross margin of \$500-600. In 2014, the average shipment revenue was approximately \$319 with gross profit of \$39; in 2015, this remained steady at \$313 and \$47 respectively. In 2016, as the scope of the company's geographic and equipment type coverage expanded, the average shipment revenue was \$580 with a gross profit of \$68. In 2017, by comparison, average shipment revenue was \$483 but with an increase in gross profit to \$72.

During 2015 and the first quarter of 2016, a percentage of the accounts receivable were Factored to ensure timely payment to Carriers as an incentive to their continuing and proactive participation. The company discontinued this practice with the receipt of its second round of financing which enabled the hiring of clerical staff dedicated to handling receivables. Important to note is that a significant portion of the shippers pre-pay for the transaction with corporate credit cards. In 2017, this amounted to \$971,335 or 47% of total gross revenue.

Freightera's services include Transaction support online including, carriage documentation, shipment tracking and customer support. As part of the service, Freightera currently provides the Shipper with the ability to generate standardized lading documentation, including a freight waybill (Bill of Lading) and planned for the future, other documents, such as an export declaration form or similar forms for shipments destined beyond borders. This is a significant productivity benefit for both Shipper and Carrier and provides a competitive advantage.

Competitors

Freightera has entered a competitive segment of the freight industry where there are several established players collectively offering a variety of services. The majority of these offer a limited number of services beyond those of a freight broker and in some cases provide only an online web interface to collect shipment information from a Shipper seeking rates and availability but without the ability to provide an immediate response. None have the breadth of integrated services planned by Freightera to be delivered in a 'single package' including multi-modal national, regional and local coverage, handling accounting transactions (payable and receivable), shipping documentation and direct customer support services.

The following is a sample and brief profile of those offering a competitive service to that of Freightera's, i.e. provide some level of automated return of comparative choices (although not necessarily as comprehensive in content as planned by Freightera) and who can be considered dominant players. The statistical information for the following is publicly available on each of their own company websites at the time of the preparation of this Offering Memorandum, however, the claims for numbers of Shippers and/or Carriers registered with each cannot be independently qualified.

Marketing Strategy

Freightera is designed to operate in the global Third Party Logistics (3PL) market. In 2016 this market was valued at USD 750.51 billion, and it is projected to grow to 996.37 billion in 2021.² The 3PL market is a subset of the global logistics market, which in terms of revenue was valued at USD 8.2 trillion in 2015, and is expected to reach USD 15.5 trillion by 2023.³ The “global logistics market” is the flow of resources and information between sources and the consumer, including but not limited to truck, rail, ocean and air shipments and the supporting infrastructure.

Freightera began and will continue to expand its service offerings with lanes across North America for the first one to four years. The North American 3PL market is estimated at approximately US\$205 billion of which US\$8.23 billion is considered Freightera’s *immediately addressable market*, that is, non-contractual freight movement for which shippers have the option to choose the mode and type of carrier or third party service provider, such as a freight broker or forwarder (see figures below). Within this market, Freightera has initially focused on the Canadian domestic and cross border (US/Canada) markets, and the U.S. domestic markets, primarily using highway and rail services.

Freightera’s sales and marketing efforts are focused on the two main client components with indirect support from a third group of interested parties:

- a. Solicit the participation of every major national and regional Carrier in the U.S. and Canada (including certain Freight Forwarders and countries beyond) and upload their pricing and service criteria to the Freightera database.

At the date of this Offering Memorandum, over 600 Carriers in the U.S. and Canada including 32 ranked within the Top 100⁴ for hire carriers in North America, have signed on and are currently supplying rates, or in the process of supplying rates, to Freightera’s database. These rates are discounted from their ‘standard’ tariff to be competitive (see ‘Revenue Model’ below).

The initial participants were solicited by personal email and/or telephone, or by Shipper’s referral. However, as the company has grown, Carriers have requested inclusion without solicitation as Freightera’s service and reputation has become more known within the industry and peer pressure is obligating some to join to remain competitive. In 2017, Freightera signed an additional 232 carriers, including all 7 Class 1 Railroads. Freightera now has expertise and a network of contacts from within its personnel ranks to assist in making further additions.

- b. Execute a sales campaign targeting all levels of Shippers to sign up, try the service and secure their repeat orders with an aggressive approach to providing customer service and a complete suite of value-added program features.

As of the end of Q1, 2018, 6,745 Shippers in the U.S. and Canada have opened accounts with Freightera, with approximately 1,222 revenue accounts and over 1,014 shipments in the same quarter. The company is tactically focused on increasing this number by regularly increasing service offerings, adding new carriers with better rates, and continuing to market to existing accounts via emailing, calling and targeted advertising.

- c. Partner with government, academic and industry agencies to support the supplementary goals of emissions reduction and improved freight transportation economics.

Government agencies have an interest in supporting commercial initiatives that will address the highly political and social issues around factors contributing to climate change and specifically air pollution. One of the largest contributors of air pollution in Canada's cities is by vehicles⁵. Federal, State and Provincial and municipal programs support such initiatives in two ways:

- **Legislation**, such as, in Canada, the Heavy-duty Vehicle and Engine Greenhouse Gas Emission Regulations (part of the Canadian Environmental Protection Act of 1999 and amended in July 2015)⁶ or, in the U.S. Heavy-Duty (Tractor-Trailer) Greenhouse Gas Regulations (2008) adopted by the California Environment Protection Agency⁷.
- **Funding**, such as, in Canada, Sustainable Development Technology Canada, a \$915 million fund supporting the development of 'clean-tech' solutions invited Freightera to submit a proposal, yet to be fulfilled; also, SmartWay, a cooperative emissions reduction program administered by the US Environmental Protection Agency and Natural Resources Canada, who offer grants to development partners within the freight industry. In 2016, SmartWay provided \$20,000 contract to Freightera to support their low emission initiatives. A second contract is being considered for 2018.
- **Industry associations** exist to support businesses within their sector and there are trucking and other transportation sector associations in almost every Province and State, providing a wealth of resources for service providers. The information available will assist greatly in identifying potential Client partners, and providing statistical data on related environmental matters. Moreover, as an associate member of some key organizations, Freightera may use industry hosted events such as trade shows and conventions to build lasting relationships, foster good relations and further promote the business.

Financial Milestones

The first transaction revenue was in July 2014. Some significant milestones include:

2014 Gross Revenue (6 months) was \$97,418 from 262 transactions.

2014 Gross Margin was \$14,205 or 14.5%.

2015 Gross Revenue (12 months) was \$423,637 from 1,374 transactions.

2015 Gross Margin was \$42,888 or 10.1%

2016 Gross Revenue (12 months) was \$1,645,366 from 2,829 transactions.

2016 Gross Margin was \$201,810 or 12.3% (\$143,304 or 8.7% net of uncollectable accounts).

2017 Gross Revenue (12 months) was \$2,053,209 from 4,253 transactions

2017 Gross Margin was \$307,202 or 14.96%

2018 Gross Revenue to the end of Q1 (3 months) was \$525,723 from 1,222 transactions

2018 Gross Margin to the end of Q1 (3 months) was \$57,974 or 11.1%.

It is also important to note that margin percentages may differ from month to month as they are directly affected by the profile of shipments transacted during the period and seasonal fluctuations. For example, a full truckload of goods may result in a smaller percent margin but a larger actual dollar profit than a single pallet of the same product. The percentage ‘marked up’ is not fixed and varies according to market conditions, regions and competition.

In 2016, and in particular the last quarter of the year, the company was progressively handling larger shipments including ‘heavy haul’ loads, which produced significantly larger revenues per transaction. Although the ‘markup’ on these shipments were a lower *percentage*, they actually produced a greater *dollar* profit.

For example, the following table illustrates how shipping different cargo types or quantities between the same origin and destination cities may differ:

	Profile	Revenue	Profit	% Margin
Shipment A	1 pallet @ 400 lbs	\$300.00	\$51.00	17.0%
Shipment B	Full Truck @ 40,000 lbs	\$2,500.00	\$225.00	9.0%
Shipment C	Heavy Haul Equipment	\$8,000.00	\$560.00	7.0%

Funding

Seed capital for the commercialization of the application in the amount of approximately \$335,600 was provided by the Founder's family and friends.

As of the date of this Offering Memorandum, subsequent funding has been provided by accredited investors and under three previous Offering Memoranda in the amount of approximately \$4.02 million.

The company continues to seek additional grants and funding from private, industry and government sources (see *Marketing Strategy* above).

Operating Expenses

As Freightera's business matures, expense categories become weighted differently and this occurred in 2017 compared to the previous year, in most cases proportionate to the number of business transactions (refer to Item 12. Financial Statements). Significant expenditure included:

Expense Category	2015	2016	2017	2018 (Projected)	Description
Advertising & Promotion	\$42,357	\$223,680	\$269,038	\$300,000	\$25,000 per month budget for Google ads, press releases, banner ads and others designed to bring 2,500+ new shipper accounts in 2018.
Investor Relations	\$0	\$125,541	\$281,709	\$360,000	Consulting, Exempt Market Dealer, OCMX and other fees associated with raising the planned \$3M-\$5M in new investment in 2018.
Professional Fees	\$127,699	\$72,466	\$175,090	\$170,000	Includes \$120,000 budget for non-salaried programmer and part-time project manager, audit and any legal fees.
Salaries	\$33,212	\$330,360	\$501,665	\$504,024	Salaries fell from an annualized \$569,024 in Jan 2017 to \$424,024 due to reduced staffing. We plan to add a full time salaried Product Manager/Development Lead in 2018, requiring a budget of \$504,024 total.
Subcontractors	\$340,310	\$402,498	\$479,420	\$567,098	We had reduced our team by 4 subcontractors since the end 2017, but have budgeted a rate increase for the Eastern European subcontracted team and \$150,000 for short term hiring of senior programmers on a subcontract basis in 2018.

2.4 Long Term Objectives

Freightera has several goals in relation to its competitive position through achievement of securing the largest database of clients and users, delivering superior customer service, advancement of application technology and contribution to corporate social responsibility through its 'green freight' initiatives.

Freightera's long term objective is to achieve annualized gross revenues sufficient to position the company to maximize the returns on investment through any of its options for exit strategy and continuing operations. The following table summarizes the costs Freightera expects to incur in its efforts to achieve these goals and each category is described in detail thereafter:

Long-Term Objective	Target Completion	Estimated Cost
Shipper Marketing	4 years	\$9,800,000
Carrier Marketing	4 years	\$2,050,000
Customer Service & Sales	Ongoing (annual estimate)	\$1,700,000
Technology Leadership	2 years	\$2,000,000
Pollution & Efficiency Initiative	4 years	\$1,000,000

Note: The foregoing information is forward-looking information, and as such readers are cautioned that actual costs and target completion times may vary from the forward-looking information. In particular, material risk factors could cause actual results to differ materially from the forward-looking information (for more information on risks, please see “Item 8: Risk Factors”). Furthermore, there are material factors and assumptions used to develop forward-looking information including achieving the mentioned target completion dates on time and the costs remaining as estimated.

2.4.1 Shipper Marketing

Freightera’s goal is to scale up and gain prominence to being the ‘household name’ of freight marketplaces in the minds of all classes of commercial Shippers. The objective is to engage 250,000 or more Shippers and from them generate over 50,000 revenue-producing accounts ongoing, within 4 years at an average cost of \$40-\$48 per engagement, or \$200-\$240 per conversion. This average is approximately half of the current cost but with economy of scale may be achieved by:

- a. obtaining top positioning in both paid and organic visibility (web search optimization) on search engines, potentially reaching several million business-to-business (B2B) shippers;
- b. targeted cold and referred contacts solicited by additional in-house sales personnel and marketing partners hired under performance-based contracts.
- c. incentives to respondents, such as sign-up bonuses and a range of value-added services that require development;
- d. creating demand with thought leadership such as articles and papers about the economic benefits of Freightera’s services and becoming recognized as the authority in this segment of the industry; this has an indirect cost in terms of management and materials.
- e. ongoing public relations initiatives by the Company’s representatives to promote the brand and the message, such as media participation, trade shows and event sponsorship, each of which may cost in excess of \$20,000 per event.

The estimated cost of Shipper-focused programs, funding dependent, over the next 3 years (to late 2022) is \$9,800,000.

2.4.2 Carrier Marketing

In a parallel campaign to securing Shippers, the number of Carriers engaged is targeted at 20,000 and from them generate 4,000 revenue-producing accounts ongoing, by December 2021. Onboarding a new Carrier involves costs such as technology interface with often incompatible systems and support personnel, estimated to be \$1000-\$2000 per carrier (for the largest 200 in North America only), lower for the thousands of carriers that have density based rates, and falling to near \$0 for carriers that sign up on their own and enter their own rates. The Carrier profile may be varied and ranging from:

- a. local and regional to national and international Carriers;
- b. trucking companies with fleets of as little as 5 vehicles to thousands;

- c. those with different types of highway equipment and rolling stock, for example, dry cargo van, parcel van, refrigerated, bulk, flatbed trailer, container-on chassis, etc.;
- d. size and capacity of individual units, such as trailer length or high cubic capacity; and
- e. other specialty services, such as LTL (less-than-trailer load) only, or TL (full trailer load), expedited or household moving.

The approach used for Carrier Marketing will be a combination of the following and other approaches:

- a. targeted cold calling (necessary for obtaining many of the Company's first clients and produces unexpected high conversion rate) and personal contact from in-house salaried personnel which will involve travel cost and industry conference participation.
- b. the use of web content that may be peripheral to the transaction itself but will be a source of informative and useful industry content for the client and a value-added service link for the Carrier.
- c. non-conflicting industry partnerships (negotiations have begun to form a strategic alliance with at least one provider). This could include an indirect cost of revenue-sharing.

The estimated cost of carrier-focused programs over the next 4 years (to end of 2021) is \$2,050,000 dollars.

2.4.3 Customer Service and Sales

A sustained effort to excel in sales representation and customer service is and will continue to be one of the important components of the Company's culture.

It is critical to the success of the Freightera marketplace for a large number of Carriers to participate and thereby provide selection of competitive rates and services to the Shippers. They may have pressure to compete and the incentive to maximize load factors to do so. The resulting amount of discount in the rates provided to Freightera's database may also translate to be a cost-effective sales tool for them. An increase in load factors and reduction in overhead are both contributors to their profitability. Maintaining relationships with the Carriers to continually offer their best rates and be considered as their preferred marketplace for doing so will be a reflection on Freightera's good standing in the industry.

Shippers have different needs to be satisfied, that is, to ensure trouble-free and supportive service as well as the best value for their shipping dollar. The response from Freightera to a Shipper's request does not rest with a selection of rates and service timetables from the Carriers. The overall experience is key to their retention and their retention is in turn critical to maintaining a sustained growth of the client customer base and the objective of reaching the desired 50,000 revenue-producing accounts in the shortest possible time.

Freightera will be creative in measuring its customer service performance in a number of different ways, including Carrier and Shipper retention rates, percentage increase in the number of transactions per Shipper and the nature of solicited feedback from Clients. The estimated cost of maintaining 50,000 revenue-producing customers per annum through sales and customer service personnel and value-added client support is \$1,700,000, or 40 personnel handling an average of 1,250 customers per person.

2.4.4 Technology Leadership

Freightera intends to achieve and sustain a leader's role in the freight industry through offering the best-in-class web and mobile platforms. Currently, its application is proving to be stable and the features

compare favourably with its competitors. Also, there are a several initiatives that Freightera has designed, begun to develop or planned for new functionality and usability. For example,

- a. Carrier rates and services are often imported and updated with either an API, bulk upload or through the Freightera system and can easily be updated, although there is a cost associated with this method. Carriers without this technology use either third parties to execute, or as in the case of most small regional Carriers that Freightera will be targeting to expand their coverage, default to a manual process, which may be a higher initial cost of induction.
- b. response time to search is in many cases 15 seconds or less and being maintained even with a rapidly expanding database; and
- c. mobile application development is in testing now, and expected to go live in late Q2-2018. This will allow shippers to quote and book from mobile devices. Improved, map based shipment tracking, originally to be programmed, now will most likely be provided by integration of a third party system in Q3-2018.
- d. Combining multi-lane, multimodal rate combinations to enable a single response to any origin-destination rate request.

The estimated cost of creating and maintaining these industry-leading capabilities and developing first-to-market advancements is estimated at \$2,000,000, 80% of which will be for salaried and contract programming personnel and the balance for development tools.

2.4.5 Pollution Reduction and Efficiency

Freightera's corporate mission includes making a significant contribution to the reduction of greenhouse gases (GHG) generated by the consumption of fuel oils in the transportation sector, of which 22% on our continent comes from medium and heavy trucks⁸. To meet the terms of international agreements and the pressures of public concern, there is ongoing interest from both government and industry to identify opportunities and act in favour of controlling and reducing these emissions. Initiatives of this kind are also likely to achieve a better public relations profile and advantageous business consequences. Freightera would like to both fulfill its corporate responsibility and include this initiative in its marketing to reach those companies that have similar objectives. Freightera can and plans to:

- a. provide Carriers with the ability to maximize load factors through use of Freightera's existing marketplace, thereby reducing the overall number of trips;
- b. generate data that can be analyzed in terms of load consolidation, interline coordination, on-time performance and other measures of efficiency;
- c. create a rating system for 'Green Transport' as incentive to its Clients to take on a heightened role in corporate responsibility; and
- d. establish Freightera as a primary industry partner and public name associated with this goal. This has begun with the proposed SmartWay program partnership (see *Marketing Strategy above*). Also, Freightera's Founder and CEO penned well-received articles for both the 2016 G7 Summit in Japan and press releases read by participants in the COP21 conference resulting in an invitation to present a freight industry perspective on the "green future of freight" at the subsequent COP22 conference in Marrakech along with representatives of the Canadian

2.5 Short Term Objectives and How We Intend to Achieve Them

The following outlines the Company's short-term objectives for the next 12 months with some adjustment for what has been achieved year to date. The rate at which these numbers are to be met are expected to accelerate with the recent addition of human resources that the company has been able to engage following the last round of financing.

- a. As of the date of this Offering Memorandum we currently have over 6,745 registered shippers. Our objective is to successfully sign up an additional 4,500 Shippers which, based on our current and projected conversion rate will produce 750 or more new revenue producing accounts;
- b. To successfully engage an additional 600 Carriers, including 50 more of the largest firms in North America with application programming interfaces. Based on our current estimates, this could also indirectly bring up to 300 revenue producing accounts with an estimated additional 10 billion lanes;
- c. Expand the shipper sales and brokerage department from the current one (1) full-time senior account manager to four (4) to focus on larger targeted U.S. and Canadian Shippers.
- d. Expand the customer care staffing from the current department manager and six (6) part-time personnel as necessary to maintain a ratio of one (1) fulltime service person per 250 revenue accounts and ensure a rapid response to service issues and billing resolution and personal contact;
- e. Extend the product development of the software system to an integrated mobile application;
- f. Continue the existing quotation and booking software system development to enhance the existing categories and expand the range of services offered including:
 - dry LTL and TL
 - temperature-controlled cargo
 - selected specialized equipment (e.g. heavy haul)
 - add-on services, e.g. cargo insurance (covered by third party)
 - the selection of a 'lower emission' option for all modes, including showing actual emissions by carrier (subject to receiving approval from SmartWay and the Canadian Ministry of Natural Resources to display this data); and
- g. Ensure the Company's operations are well organized and administered, including the financial reporting, mitigation of risk and commercial liability, regulatory and government compliance, protection of intellectual property and a positive, inclusive company culture.

A warrant-holder may exercise less than the total warrants held at each exercise price provided that a minimum of CAD \$10,800 total value is exercised per each exercise price each time an exercise is made for the warrants at that exercise price value. This means that (1) a total of at least 6,000 full warrants at the \$1.80 exercise price level must be exercised for each exercise of such warrants, and (2) a total of at least 4,500 warrants at the \$2.40 exercise price level must be exercised for each exercise of such warrants, and (3) the \$10,800 minimum total exercise price must be satisfied for each warrant exercise price level (\$1.80 or \$2.40) separately such that the warrants with different exercise prices cannot be combined to meet the minimum total exercise price of \$10,800.

All Common Shares to be issued in the entire Offering (whether as part of the Common Shares offering or any of the Series A Units, Series B Units and/or Series C Units offerings) are of the same class of common shares. Each such Common Share entitles its holder to one vote at meetings of common shareholders of the Company and at any other meeting that such holders may be entitled to vote. For additional information about the Common Shares, please refer to item 4.1 above.

The warrants to be issued as part of the Units for the series offerings mentioned above do not entitle their holders to any voting rights. A shareholder of Common Shares holding such warrants has only voting rights with respect to the Common Shares such shareholder holds.

All Common Shares, whether acquired as part of the any of the Series A Units, Series B Units, Series C Units, and/or the Common Share offerings are subject to the Shareholders' Agreement (see item 5.1 *Terms of Securities* for more details).

5.1 *Terms of Securities*

The material terms of the securities are provided for in the Shareholders' Agreement dated November 19th, 2015 attached as Appendix 1 to this Agreement. The following is a summary of the terms:

Voting rights

Each Common Share entitles the holder to one vote. On a vote by show of hands, every person present who is a shareholder or proxy holder and entitled to vote at the meeting has one vote. On a poll, every Shareholder entitled to vote in respect of each share entitled to be voted on the matter and held by that Shareholder and may exercise that vote either in person or by proxy.

If there are joint shareholders registered in respect of any share, any one of the joint shareholders may vote at any meeting, either personally or by proxy, in respect of the share as if that joint shareholder were solely entitled to it.

Interest Rates or Dividend Rates

No interest is paid in relation to this Offering of Common Shares and no dividend bears interest against the Issuer.

The Company's board of directors may from time to time declare and authorize payment of dividends as they may deem advisable. Any dividend may be made payable at a rate on such date as is fixed by the directors. However, any such declaration, authorization or payment is not guaranteed or intended as a condition of this Offering.

Tag Along Rights

The following is from the Shareholders' Agreement in Appendix I and the capitalized terms not otherwise defined below are defined therein.

With respect to the transfer of a particular class of Shares, if any Founder (a "**Piggyback Seller**" for the purposes of this section) wishes to transfer its Shares (the "**Offered Securities**") to a third party (a "**Piggyback Sale**"), then any Shareholder (the "**Other Holder**") shall have the right (the "**Piggyback Right**") to participate in any such Transfer of Shares by that Piggyback Seller on the following terms and conditions:

- a. **Intended Sale Notice.** If the Piggyback Seller intends to proceed with a Piggyback Sale, the Piggyback Seller shall immediately notify each Other Holder in writing specifying:
 - i. The name and address of the third party (the "**Third Party**") intended to purchase the Offered Securities;
 - ii. The purchase price the Third Party is to pay the Piggyback Seller for the Shares to be purchased (the "**Specified Prices**") and the other terms and conditions of the intended sale;
 - iii. The number and class of Equity Securities held by the Third Party and its Associates and Affiliates; and

- iv. That each Other Holder has the Piggy Right provided under this section in respect of the proposed Transfer.
- b. **Securities which can be Piggybacked.** Each Other Holder shall be entitled to sell to the Third Party, in conjunction with the closing of the Third Party's purchase of Shares from the Piggyback Seller, such Other Holders pro rata portion of his, her or its Shares (or such lesser number of Shares as each Other Holder may determine) determined by the following formula, and for clarity such entitlement is only with respect to the particular class(es) of Shares that is/are part of the Piggyback Sale and the following formula is to be calculated for each such class separately:
- $$\begin{array}{l} \text{Proportion of the class of} \\ \text{Shares that is to be} \\ \text{Transferred in the Piggyback} \\ \text{Sale an Other Holder may sell} \end{array} = \frac{\begin{array}{l} \text{Number of such particular class of Shares on a Fully} \\ \text{Converted Basis held by the Other Holder for whom this} \\ \text{formula is being used for} \end{array}}{\begin{array}{l} \text{Total number of such particular class of Shares on a Fully} \\ \text{Converted Basis then held by all Other Holders (including} \\ \text{the Other Holder for whom this formula is being used for)} \\ \text{and the Piggyback Seller as a group} \end{array}} \times 100\%$$
- c. **Exercise Notice.** Each Other Holder shall have 14 calendar days after the receipt of the Piggyback Notice, to exercise its Piggyback Right by written notice to the Piggyback Seller specifying the number of Shares which each Other Holder elects to sell to the Third Party hereunder as applicable given the particular class of Shares the Third Party is intending to purchase from the Piggyback Seller.
- d. **Piggyback Sale to Third Party.** If an Other Holder exercises the Piggyback Right, the Piggyback Seller may not complete the Transfer of the Offered Securities to the Third Party unless the Third Party also purchases from the Other Holder all of the Shares (the "**Piggyback Securities**") in respect of which the Piggyback Right was exercised at the same time and on the same terms and conditions.

If the Third Party will not purchase the Piggyback Securities from the Other Holders on the terms and conditions provided for herein, then the Piggyback Seller shall not Transfer the Offered Securities to the Third Party. If the Piggyback Seller Transfers all or part of the Offered Securities to the Third Party in violation of the foregoing, then each Other Holder shall have the right to put (by notice in writing) its Piggyback Securities to the Piggyback Seller at the Specified Prices, in addition to any other rights or remedies it may have at law or equity.

For clarity, this section gives the right to Other Holders to sell the particular Share class that is subject to the Piggyback Sale and not for other Share classes that were not subject to the Piggyback Sale.

Drag Along Rights

The following is from the Shareholders' Agreement in Appendix I and the capitalized terms not otherwise defined below are defined therein.

If:

- a. shareholders of the Corporation holding not less than 80% of the issued and outstanding Common Shares (on a Fully Converted Basis) (the "Selling Shareholders") have agreed to Transfer to an arm's-length Person or Persons acting in concert (the "**Purchaser**" for the purposes of this section) pursuant to a bona fide offer all of the Common Shares of the Corporation held by the Selling Shareholders or the Selling Shareholders approve a sale of all or substantially all of the assets of the Corporation to the Purchaser; and

- b. in the case of an offer for all of the Common Shares of the Corporation as indicated in the subsection above, the Purchaser offers to each of the other shareholders of the Corporation (the “Other Shareholders”) to purchase the remaining Common Shares of such Other Shareholders (the “**Specified Securities**”) on equivalent terms and conditions, mutatis mutandis, as those agreed to by the Selling Shareholders, but subject to the rights and restrictions, including all liquidation preferences, attaching to the respective Shares as set out herein and in the Constatting Documents of the Corporation, and all of which terms and conditions are set out in writing and promptly delivered to the Other Shareholders (the “**Drag Along Offer**”),

then, in the case of an offer for all of the Common Shares of the Corporation, the Other Shareholders will be required to sell all of their Specified Securities to the Purchaser in accordance with the terms and conditions of the Drag Along Offer, and in the case of a sale of all or substantially all of the assets of the Corporation, the Other Shareholders shall consent to, vote for and raise no objection to such sale and shall do such additional acts as are necessary and desirable to give effect to such sale.

If any of the Other Shareholders (the “**Delinquent Holders**”) fail to sell their Specified Securities to the Purchaser in accordance with the terms and conditions of the Drag Along Offer, the Purchaser will have the right to deposit the applicable purchase price for those Specified Securities of the Delinquent Holders in a special account at any financial institution in Canada, to be paid proportionately with interest, to the respective Delinquent Holders upon presentation and surrender to such financial institution of the certificates or documents representing such Delinquent Holders’ Specified Securities duly endorsed for transfer to the Purchaser. Upon such deposit being made, the Specified Securities in respect of which the deposit was made will hereby automatically (without any further action of any kind on the part of the Delinquent Holders or the Purchaser unless required by applicable laws) be transferred to and purchased by the Purchaser and will be transferred on the books of the Corporation to the Purchaser and the rights of the Delinquent Holders in respect of those Specified Securities after such deposit will hereby be limited to receiving, with interest, their respective portion of the total amount so deposited against presentation and surrender of the certificates or documents representing their respective Specified Securities duly endorsed for transfer to the Purchaser.

Founders’ Subordination

The following is from the Shareholders’ Agreement in Appendix I and the capitalized terms not otherwise defined below are defined therein.

Notwithstanding anything to the contrary, if prior to an IPO, the Corporation undergoes a Sale, then if the aggregate proceeds from such Sale that are payable to each Shareholder for his or her Common Shares is less than the Original Purchase Price (as computed, the “**Shareholder Deficit**”), then each of the Founders shall forfeit and subordinate to such Shareholders, such portion of their proceeds that is in excess of their respective aggregate Original Purchase Price, to the extent of such Shareholder Deficit.

Endorsement on Share Certificates

The following is from the Shareholders’ Agreement in Appendix I and the capitalized terms not otherwise defined below are defined therein.

Any and all certificates representing Equity Securities now or hereafter owned by Shareholders during the currency of this Agreement (whether such Equity Securities are issued initially or following a Transfer or otherwise) will have endorsed thereon in bold type the following legend:

“The securities represented by this certificate are subject to the provisions of a Shareholders Agreement dated for reference November 19th, 2015, as amended, restated or replaced from time to time, and such securities are not transferable on the books of the Corporation except in

accordance and compliance with the terms and conditions of such Agreement and Articles of Incorporation of the Corporation.”

Waiver of Rights

The following is from the Shareholders’ Agreement in Appendix I and the capitalized terms not otherwise defined below are defined therein.

Notwithstanding any other provision of Article 3 of the Shareholders’ Agreement any Person may waive its rights with respect to any particular offer or right given under, or provision contained in, Article 3 by notice in writing to the Corporation and the Shareholder who is proposing to transfer Shares.

Share Certificate Legends; Hold Period; Transfer Restrictions

Any share certificates or similar documentation evidencing any Common Share issued under this Offering Memorandum will contain a legend or similar notation indicating the applicable hold period, transfer restrictions, and any other applicable restrictions attached to such Common Share. In general, subject to and except pursuant to applicable securities laws, the holder of each Common Share issued under the Offering Memorandum must not trade the Common Share before the date that is four months and a day after the later of the date of the issuance of such Common Share and the date the Company becomes a reporting issuer in any province or territory in Canada. Presently, the Company is not a reporting issuer in any province or territory in Canada, and there is no assurance that it will become a reporting issuer in the future. Furthermore, the Company is a private company and not a public company. For so long as the Company is not a public company, no Common Share may be sold, transferred or otherwise disposed of without the consent of the Company’s directors and the directors are not required to give any reason for refusing to consent to any such sale, transfer or other disposition.

5.2 Subscription Procedure

Subscription and Payment

You may subscribe for the Units and/or the Shares, for the first and second tranche, respectively, by returning to the Issuer the following:

- a. a completed Subscription Agreement in the form accompanying this Offering Memorandum, duly executed – you should keep a copy of this agreement and the Offering Memorandum for your records;
- b. a completed copy of a Risk Acknowledgement Form (Form 45-106F4), duly executed. Subscribers in Alberta, New Brunswick, Nova Scotia, Ontario, Québec or Saskatchewan must also complete Schedules 1 and 2 to the Risk Acknowledgement Form -- you should keep a signed copy of this form along with its Schedules, if applicable to you;
- c. a completed copy of the Shareholders’ Agreement, duly executed; and
- d. a certified cheque or bank draft or wire transfer made payable to the Issuer, or other form of payment acceptable and pre-arranged with the Company, in the amount of the Subscription Price in Canadian Dollars.

The Subscription Agreement, Risk Acknowledgement Form and any related Schedules, Shareholders’ Agreement and Subscription Price will be retained in the possession of the Issuer until closing. The Company has the discretion to fully or partially accept or reject any subscription for the Units and/or the Common Shares by the applicable Date of Closing. In case of rejection of any subscription, the part of the Subscription Price not accepted by the Company for closing will be refunded to the prospective purchaser.

On the Date of Closing, the Subscription Agreement and the Subscription Price may be accepted (fully or partially) by the Issuer, and if accepted, the Risk Acknowledgement Form and its Schedules will be retained by the Issuer for eight years in compliance with National Instrument 45-106.

By signing the Subscription Agreement, the prospective purchaser authorizes the Issuer to perform certain functions, as described in this Offering Memorandum. A Subscriber will only be accepted as a Shareholder if on or before the Date of Closing the Issuer is in receipt of the Subscription Documents in accordance with the Subscription Agreement, including the Subscription Price.

You may not subscribe for fractional Units or fractional Shares and no fractional Units or fractional Common Shares will be issued by the Company.

Consideration to be held in trust

We will hold your subscription funds in trust until midnight on the second business day after the day on which we received your signed Subscription Agreement.

Right of Issuer to refuse Subscriptions

The Issuer reserves the right to accept or reject any Subscription Agreement in whole or in part and close the Offering at any time, without notice. If the Issuer rejects any Subscription Agreement (in whole or in part), the Issuer will return the Subscription Price (or part thereof in case of a partial acceptance) to the Subscriber, without deduction or interest payable to the Subscriber.

Conditions to closing

The Issuer reserves the right to accept or reject subscriptions in whole or in part at our discretion and to close the Offering at any time without notice. Any subscription funds for subscriptions that we do not accept will be returned promptly after we have determined not to accept the funds.

The Issuer expects to have multiple closings of the Offering prior to any final closing date as the Issuer may, in its sole discretion, determine.

Share certificates (and warrant certificates with respect to the Unit offering) will be issued to investors at or before the final closing date (as applicable for the first and second tranche) as the Issuer may, in its sole discretion, determine.

ITEM 6: INCOME TAX CONSEQUENCES AND RRSP ELIGIBILITY

6.1 Professional Advisor

You should consult your own professional advisers to obtain advice on the income tax consequences that apply to you.

6.2 Other Income Tax Disclosure

Not applicable

6.3 RRSP Eligibility

Not all securities are eligible for investment in a registered retirement savings plan (RRSP). You should consult your own professional advisers to obtain advice on the RRSP eligibility of these securities.

ITEM 7: COMPENSATION PAID TO SELLERS AND FINDERS

The Issuer has and may enter into agency agreements to market the Units and the Common Shares under the terms of this Offering Memorandum. The agency agreements shall provide for a sales commission not to exceed in the aggregate 12%, or \$192,000 (assuming the Maximum Offering).

The Issuer may grant brokers' warrants, agents' options or other securities as payment of compensation under agency agreements as negotiated by the Issuer and may include broker warrants of up to 10% of gross proceeds from the sale of Units and/or Common Shares resulting directly from the agent's efforts converted to Units and/or Common Shares at the price that the Units and/or the Common Shares are then currently being offered at an exercise price of \$1.20 per common share. Given that there is no minimum amount for the Minimum Offering, the number of such warrants, options or other securities may vary depending on the actual Minimum Offering after completion of the same.

There is no other compensation in the form of securities paid to any seller or finder of the Units or the Common Shares offered under this Offering Memorandum.

ITEM 8: RISK FACTORS

8.1 *Investment Risk*

The purchase of the Units and the Common Shares involves a high degree of risk. The following is a summary of only the material risk factors that may face the Issuer. However, additional risks that the Issuer does not currently know about or that it currently believes to be immaterial may also impair our business operations. If any of the following risks actually occurs, our business, results of operations and financial condition could be materially adversely affected. In addition to the factors set forth elsewhere in this Offering Memorandum, prospective purchasers should consider the following:

Our Securities are Speculative: there is No Market for our Securities, and the Securities have Resale Restrictions.

The purchase of the Units and the Common Shares is highly speculative. You should buy them only if you are able to bear the risk of the entire loss of your investment and have no need for immediate liquidity in your investment. An investment in the Units or the Common Shares should not constitute a major portion of your portfolio. You should consult your own independent advisors as to the tax, business and legal considerations regarding an investment in our securities. Because there is no market for our securities you may not be able to sell your securities. The securities you are buying are not listed on any stock exchange, and they may never be listed. You may never be able to sell your securities and recover any part of your investment. In addition to restrictions on securities provided for under securities laws, the Units and the Shares are subject to additional restrictions on resale as set out in the Shareholders' Agreement and the Company's articles.

Value of Securities of the Company

We determined the price of the Units and the Common Shares arbitrarily. The price bears no relationship to earnings, book value or other valuation criteria.

No Minimum Subscription

The Offering is subject to no minimum subscription level and, therefore, any funds received from an investor will be made available to the Issuer subject only to the purchaser's rights described in Item 14 and need not be refunded to the investor once the Company closes on the investor's subscription. On several dates prior to and upon completion of the Offering, all of the subscription funds will be advanced to the Issuer. In the event that the Issuer does not raise or invest the Maximum Offering, there may be insufficient funds to achieve all of the Issuer's objectives.

The Issuer has a limited Operating History

The Issuer is entering its fourth year of commercialization and therefore a limited history of earnings. There is no assurance that Issuer will be able to achieve and then maintain sales or earnings.

Marketability of the Units and the Shares, No Listing, and Exit Strategy

There is currently no formal market for the Units, or the warrants included in the Units, or the Common Shares, nor is it expected that one will develop. The Units and the Common Shares will be sold pursuant to exemptions from applicable securities laws and any disposition of Units, the warrants included in the Units, and the Common Shares will require compliance with such laws, including resale restrictions. Consequently, it is possible that Unit holders and Shareholders of Common Shares may not be able to liquidate their investment and that the Units as a whole, the warrants included in the Units, and/or the Shares may not be readily acceptable as collateral for loans.

The Units, the warrants forming part of the Units, and the Common Shares are not currently listed on any stock exchange, market, or quotation system, and the Issuer has no plans in place to list any of Units, the warrants, or the Common Shares on any of the foregoing.

Tax Matters

The return on a Shareholder's investment in his/her/its Units and/or Common Shares is subject to changes in Canadian Federal and Provincial tax laws, as well as any other tax laws applicable to the Shareholder. There can be no assurance that the tax laws will not be changed in a manner which will fundamentally alter the tax consequences to investors of holding or disposing of Common Shares and/or the Units. No advance income tax ruling has been applied for or received with respect to the income tax consequences set out in this Offering Memorandum. Each prospective investor and Shareholder must seek advice from their own legal, accounting, and financial advisors regarding tax matters applicable to such investor or Shareholder.

No Representation

The Issuer has not retained any independent professionals to review or comment on this Offering or otherwise protect the interests of the Subscribers. Although the Issuer has retained its own counsel, neither such firm nor any other firm has made, on behalf of the Purchaser, any independent examination of any factual matters represented by management herein, and purchasers of the Units and the Shares offered hereby should not rely on the firm so retained with respect to any matters herein described.

8.2 Issuer Risk

Dilution

Purchasers in this Offering will incur immediate and substantial dilution in the net tangible book value of their investment as a result of this Offering.

The Subscription Price will be substantially higher than the net tangible book value per Unit and per Common Share immediately after this Offering. If you purchase Units and/or Common Shares in this Offering, you will incur immediate and substantial dilution of \$1.20 per Common Share, representing the difference between the Subscription Price of \$1.20 per Common Share and our pro forma net tangible book value per Common Share as of the date of this Offering.

Moreover, warrants were issued in the past to acquire Common Shares at prices significantly below the Subscription Price. As of the date of this Offering Memorandum, there were 703,102 warrants issued and outstanding with an average exercise price of \$0.5012 per Common Share.

Operational Risk

The Issuer is in an early commercial and continuing development phase of its operations. An investor must assess the impact of the limited business history of the Issuer. Investors in the Issuer will be required to rely upon the Issuer in its ability to develop the product, the selection of the geographical territories to be developed, the management and operation of the Issuer's proposed marketing to key partners, strategic alliances and end users and the general administration of its business.

The Issuer will rely to a significant extent on the expertise of its officers, employees and consultants. In addition, the overall performance of the business of the Issuer will be dependent upon the success of the sale of its Units and Common Shares, since the Issuer will require significant percentage of the Maximum Offering to commence all of its projects.

The Issuer is not producing net income and the Issuer may not be able to fully execute its business plan, for any number of reasons, including (without limitation) lack of sufficient funding, lack of sufficient market acceptance, inability to develop or obtain contracts or relationships with key partners, strategic alliances or end users, execution risk, competition and all of the difficulties and challenges associated with being a new business.

The Issuer expects to continue to incur net losses because the Issuer is expending substantial resources on the following areas of its operation, to grow the business, achieve eventual profitability and the significantly improve company's valuation:

- a. product development;
- b. intellectual property portfolio development;
- c. brand development;
- d. general and administration expense; and
- e. sales and marketing.

The Issuer's profitability depends on maintaining adequate volume of transactions at relatively low margins, particularly in light of operational risks faced from competitors. As a result, changes in the volume of transactions handled by the Issuer and other factors such as occurrence of bad debts can materially and adversely affect the Issuer's profitability. The Issuer cannot be certain that its business strategy or model will be successful or that target revenues or profitability will ever be achieved. Even if profitability can be achieved, the Issuer cannot be certain that it can be consistently sustained or increased in the future.

The Issuer has employees dedicated to collections activities and uses the services of a legal firm for this purpose if otherwise unsuccessful, however, it cannot guarantee that it will be able to collect 100% of its accounts receivable. Factors such as changing economic conditions, insolvency of customers, disputes over transaction charges, and other factors may prevent the Issuer from collecting 100% of its accounts receivable and may negatively impact the success of the Issuer. Bad debts including unrecoverable service failure costs are itemized on its financial statements.

Business Risks and Barriers to Entry

The Issuer cannot be certain that its business strategy or model will not be subject to current or future competition offering a similar product and service or that other competitors may gain an advantage over the Issuer.

The Issuer cannot assure that there will be sufficient industry demand for the Issuer's services from Clients and Users in each market that we choose to enter. Should there not be sufficient demand from Clients and Users, the Issuer may experience a barrier to entering the market, a delay in entering the market and/or an inability to enter the market and/or sustain and/or grow the business of the Issuer in the market.

The Issuer cannot assure that it will be able attract Clients to its website and/or service offerings and/or to convert them to Users and/or generate sufficient demand for the services of the Issuer. Should there not be sufficient demand for the Issuer's program, the Issuer may experience a barrier to entering the market, a delay in entering the market and/or an inability to enter the market and/or sustain and/or grow the business of the Issuer in the market.

The Issuer cannot assure that it will be able to ensure that the Freightera marketplace platform will continue to comply with laws, industry standards, rules or regulations for the jurisdictions in which we operate, which is an ongoing challenge both for existing markets and when entering new markets and could be a barrier to such markets.

The Issuer cannot assure that it will be able to build the Client and User base sufficiently to create the desired revenues, or it may take longer than anticipated to grow the Client and User base.

The Issuer cannot assure that it will be able to overcome resistance of Clients or User to adopting new technology, changing their business practices or accepting the costs of converting their existing systems and business practices.

The Issuer cannot assure that all Carriers will work with us or provide the most favourable rates.

Change in Technology

Ensuring that the Client and User experience and functionality is continuously improved and kept up to date with the fast pace of change in the technology industry is an ongoing challenge for the Issuer. The pace of change of technology and the requirement for the Issuer to continuously improve the system is an ongoing risk and the Issuer cannot assure that it will be able to keep up with the pace of change.

Additional Financing

The Issuer intends to use the net proceeds of this Offering for the purposes of continuing the Issuer's product and service development, hiring of new personnel, research and development, intellectual portfolio development, branding, marketing, promotions and sales and other activities necessary to operate the business. The Issuer will require additional funds to develop and grow its business. The Issuer cannot accurately predict the timing and amount of such capital requirements. The Issuer's future capital requirements will depend on numerous factors, including:

- a. the success in securing additional Clients, Users and strategic partners;
- b. the Issuer's ability to implement its marketing and sales strategy;
- c. the rate of market acceptance of the Issuer's product;

- d. the Issuer's ability to maintain and improve its gross margins; and
- e. the Issuer's ability to keep pace with advancing technology.

The Issuer presently has no contractual commitments for additional financing and it cannot give any assurance that any commitments can be obtained on favourable terms or at all.

The Issuer may have to sell a substantial number of its securities in order to obtain additional equity financing. Any additional equity financing, which may include the offering of preferred stock that the Issuer undertakes may dilute the Issuer's Shareholders.

In addition, debt financing, if available, may involve restrictive covenants with respect to distributions, raising future capital and other financial and operational matters, and may otherwise limit the Issuer's ability to raise additional equity capital.

Key Employees and Strategic Alliances

The Issuer's success will depend on its ability to attract, retain, train and motivate highly skilled employees, particularly systems development and sales and marketing professionals. The Issuer may not be able to attract the personnel it needs to execute its business plan. The Issuer's current management and/or key employees might not have the requisite skills to ensure the Company's financial success.

Further, the Issuer's success depends on a continuing and expanding its relationships with Clients, Users and other business partnerships. The Issuer also engages or will engage certain third parties for advice on technology, market data, legal, human resources, intellectual property and public relations and other areas where specialized expertise may be required and its success will depend on its ability to make such strategic alliances. The Issuer will depend substantially on the services of its executive team, management team, development team, sales and marketing team and its strategic alliances.

The Issuer's business may be harmed if it loses the services of any one of its key employees, strategic alliances or key partners and is unable to attract and retain qualified replacements.

The Issuer has no control over third party service or supplier providers on which it depends and may depend to run its business and should there be a change in the quality or level of service or supplies from such providers, then such change could materially adversely affect the Issuer.

Interests of Principals and Others in Material Contracts and Conflicts of Interest

The majority of the agreements and arrangements between the Issuer and its officer(s) and director(s), including management services contracts, have not been the result of arm's length negotiations but are believed to be reasonable in relation to the services performed. The Issuer will be relying on its respective officers and directors to advise it with respect to the development of its business. The officer(s) and director(s) of the Issuer are now or may become in the future officers and/or directors of other entities or act as principals, officers or directors of other businesses. They may have conflicts of interest in allocating management time, services and functions among the Issuer and any other present or future businesses which they may organize, or provide management services to, as well as other business ventures in which they are or may become involved. Management intends to handle conflicts of interest in accordance with applicable law.

Management of Growth

The Issuer anticipates rapid growth and plans to capitalize on this growth. The Issuer's future operating results will depend on management's ability to manage this anticipated growth, hire and retain qualified employees and strategic partners, properly generate revenues and control expenses. A decline in the

growth rate of revenues without a corresponding reduction in expense growth could have a material adverse effect on the Issuer's business, results of operations, cash flows and financial condition.

Nature of the Underlying Businesses

The Issuer is establishing a business within a competitive industry. Its success will be dependent upon its ability to develop and market its product profitably in the domestic and international marketplaces. Also important will be the Issuer's ability to source and maintain adequate alternate investment and/or debt financing and/or government assistance to meet the cash flow requirements of its operations.

Cash Flow Deficiencies

The successful operation of the Issuer will be dependent on management's ability to attain and maintain sales revenue sufficient to meet expenditures. There is no assurance that the operations of the Issuer will provide any cash flow available for distribution to the Issuer.

Management by Others

All decisions with respect to the management of the Issuer will be made exclusively by the Board of Directors, subject only to limited protective provisions and voting rights in favour of subscribers required by law. Subscribers will have to rely on the judgment of the Board of Directors in the operation of the Issuer and errors in the Board of Directors' business judgment could have a material adverse effect on the Issuer and its results from operations. The Board of Directors and officers of the Issuer will have no liability for any obligation of the Issuer unless prescribed by applicable law. The Issuer will be required to indemnify the Board of Directors, the officers, and their respective affiliates for liabilities incurred in connection with the affairs of the Issuer. Such liabilities may be material and have an adverse effect on the returns to the subscribers. The indemnification obligation of the Issuer will be payable from the assets of the Issuer, including funds contributed by the subscribers. Applicable corporate and securities laws may impose liabilities under certain circumstances on persons who do not act in good faith, and nothing herein will waive or limit any rights that a Subscriber or a Shareholder may have against the Board of Directors under those laws. In addition, to the extent permitted by applicable law, the Issuer is permitted to advance funds for legal expenses and other costs incurred as a result of a legal action against persons entitled to indemnification if such persons agree in writing to repay the advanced funds to the Issuer if it is subsequently determined that such person is not entitled to such indemnification.

Continued Brand Recognition

The Issuer believes that developing and then maintaining its brand and being able to expand its Client and User base is critical to its success. The importance of brand recognition may become greater as competitors offer similar services. The Issuer's brand-building activities will involve increasing awareness of its brand, creating and maintaining brand loyalty and increasing the availability of its product and service offerings. If the brand-building activities are unsuccessful, the Issuer may never recover the expenses incurred in connection with these efforts, and it may be unable to implement its business strategy and increase its future sales, and may lose market share.

Adaption to Changing Preferences

The success of the Issuer's product development and sales and marketing efforts is affected by its ability to anticipate changes in industry trends, the technical capability of its product development staff in developing and testing the software, including complying with governmental regulations, and the success of its management and sales team in introducing, selling and marketing the product features, and securing financing to fund the business in pursuance of these activities. Failure to develop, add new features to and market the product may lead to a decrease in the Issuer's future growth, sales and profitability. Additionally, the development of the product requires substantial systems development and marketing

expenditures, which the Issuer may not be able to finance and/or recoup if the product does not gain widespread market acceptance.

Intellectual Property

The original cloud-based application was developed by Eric Beckwitt's web development company Centauria Design for the now bankrupt Freightopolis Inc. of Montreal. Although the system worked for Freightopolis and generated over \$1 million in revenue, the company over-extended its financial resources, was unable to manage its fixed overhead, including approximately 70 full-time staff, and closed their doors in April 2014. The company was formally judged bankrupt in August 2014.

At the time of bankruptcy, the development contract with Centauria Design was voided due to lack of payment in cash and shares and the Intellectual Property (IP) developed by Centauria Design for Freightopolis (both copyright and patent) had not been transferred to Freightopolis, and the development contract included no language requiring transfer of the IP. Under Canadian law, unless the IP is specifically transferred, it remains the sole property of the author, in this case Eric Beckwitt/Centauria Design. The Issuer has secured legal opinion on this matter from the law firm of Fasken Martineau DuMoulin LLP. Notwithstanding any comment or opinion here written under this sub-section titled 'Intellectual Property', the source code and other Intellectual Property currently forming the Freightera marketplace software is significantly altered, expanded and upgraded from the original and is copyrighted in its own right. This recoding and alteration accelerated in 2017 with the release of completely redesigned and largely reprogrammed public pages of the website.

Although it was clear that any potential rights to the IP were extremely limited (the Trustee in bankruptcy process valued the estate at \$3), these rights were purchased by a numbered company believed to be owned by several former Freightopolis investors. Freightera was not contacted by this company directly at that time and learned of this transaction only from the Trustee. (See 'Contingent Liability' below).

Patent and Copyright

The original patent was filed in 2012 (Precautionary Provisional Application) and 2013 (full filing) in the U.S. only. The inventors are (equally) Jack Pollack, Chaim Stern and Eric Beckwitt. In May 2014, on behalf of all three inventors, Eric Beckwitt filed under the Patent Cooperation Treaty (PCT) to reserve rights worldwide. The original patent (full filing) was abandoned and will almost certainly be rejected. New patent applications have been filed in Canada, the U.S. and the European Union, beginning in October 2015, in the name of the original inventors.

As of October 4, 2017, the original patent has been abandoned in the European Union.

Independent of the original patent application, Freightera has developed extensive, new, patentable intellectual property and a new and separate patent owned solely by Freightera was filed in 2017. This new patent, if granted, would be the sole property of Freightera. Freightera is applying for worldwide protection for the new patent under the Patent Cooperation Treaty in late October, 2017.

The source code for the application software is also copyrighted, in Canada and the U.S. Although the bankrupt entity filed a copyright on the original code in 2011, it only represents approximately 5% of the total system code being used in the Freightera freight marketplace. Freightera has successfully copyrighted the complete, current system code in April 2015. All rights previously held by Eric Beckwitt and Centauria Design were formally transferred to Freightera on May 8, 2017.

The patent and copyright filings and other legal activity pertaining to these matters and any related correspondence is being handled by the law firm of Norton Rose Fulbright Canada LLP.

The code has been partially rewritten again with the new functionality and web interface design released Sept 1, 2017 and Freightera is now in the process of completely recoding the entire system for speed and efficiency.

Risk Related to Patent

Patent laws vary by country in relation to the rights of multiple inventors.

U.S. laws are specifically designed to provide equal rights to all inventors, to allow each inventor to fully use and profit from the invention. Any action by any one inventor to prevent another from using the invention in the marketplace is unlikely to be supported. As a result it is highly unlikely there would be any challenge from the other inventors under U.S. law. Under Canadian law, if two or more inventors were using the invention and working in a specific market, the courts may limit one or more parties from operating in the same market.

Contingent Liability

Notwithstanding any comments or opinions here written under this subsection “Risk Related To Patent”, either of the two inventors other than Eric Beckwitt, the original shareholders of Freightopolis, or any other entity that has acquired limited rights to the intellectual property or client lists could bring suit against Freightera in an attempt to limit use of the (original) patent, or seek compensation for the transfer of ownership rights.

During the year ending December 31, 2016, the Issuer received a demand letter from a third party, 2460566 Ontario Inc. (“566”) being the entity through which the original shareholders of Freightopolis have organized themselves, alleging that the Issuer was infringing on 566’s copyrights with respect to certain intellectual property and other assets allegedly owned by 566. The Issuer, while continuing to deny these allegations, wishes for an amicable resolution to this matter so as to minimize undue directing of Issuer resources towards the matter, and has been in discussions with 566 to reach an amicable settlement. The parties have so far been cooperative with one another to reach a resolution.

Though amicable discussions were and continue to be ongoing, on March 31, 2017, without any provocation during these discussions, 566 filed a statement of claim in the federal court in Ottawa, Ontario against the Issuer and Mr. Eric Beckwitt, alleging copyright infringement by them and requesting a permanent injunction with respect to the use of certain intellectual property by the defendants, damages, accounting of profits, order for the delivery of certain intellectual property to the plaintiff, and orders for pre- and post-judgement interest and costs for the action and taxes. The filing of the claim was a sharp departure from the amicable settlement process between the parties; however, the claim has not been served on the Issuer or Mr. Beckwitt, and 566 has indicated that (i) they have no intention of serving and pursuing their claim, (ii) that the filing of their claim was to preserve the time limitations for actions stipulated under the applicable statute of limitation legislation, and (iii) it should not interfere with the ongoing settlement process.

On May 26, 2017, 566 filed a discontinuance if its claim. Regardless, the parties are continuing to work towards an amicable resolution to the allegations and claims made by 566. At the same time, Freightera continues to recode the original system. When the recoding is complete, the risk of any claims of copyright infringement, regardless of merit, will be removed.

Any failure to protect our intellectual property rights could impair our ability to protect our proprietary technology and our brand

If we fail to protect our intellectual property rights adequately, our competitors might gain access to our technology, and our business might be harmed. In addition, defending our intellectual property rights might entail significant expense. Any of our trademarks or other intellectual property rights may be

challenged by others or invalidated through administrative process or litigation. While we have U.S. and Canadian patent applications pending, we may be unable to obtain patent protection for the technology covered in our patent applications. In addition, any patents issued in the future may not provide us with competitive advantages, or may be successfully challenged by third parties. Furthermore, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain.

Effective patent, trademark, copyright and trade secret protection may not be available to us in every country in which our service is available. The laws of some foreign countries may not be as protective of intellectual property rights as those in the U.S. and Canada, and mechanisms for enforcement of intellectual property rights may be inadequate. Accordingly, despite our efforts, we may be unable to prevent third parties from infringing upon or misappropriating our intellectual property.

We might be required to spend significant resources to monitor and protect our intellectual property rights. We may initiate claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. We may be subject to litigation initiated by other parties challenging our intellectual property rights. Any litigation, whether or not it is resolved in our favor, could result in significant expense to us and divert the efforts of our technical and management personnel and materially adversely affect our business and financial condition.

Disruptions in our service could diminish demand for our service and subject us to substantial liability

Because our service is complex and we have incorporated a variety of new computer hardware and software, both developed in-house and acquired from third party vendors, our service may have errors or defects that users identify after they begin using it that could result in unanticipated downtime for our users and harm our reputation and our business. Internet-based services frequently contain undetected errors when first introduced or when new versions or enhancements are released. We have from time to time found defects in our service and new errors in our existing service may be detected in the future. In addition, our customers may use our service in unanticipated ways that may cause a disruption in service for other customers attempting to access their data. Since our customers use our service for important aspects of their business, any errors, defects, disruptions in service or other performance problems with our service could hurt our reputation and may damage our customers' businesses. If that occurs, customers could elect not to renew, or delay or withhold payment to us, we could lose future sales, which could result in an increase in our provision for doubtful accounts, an increase in collection cycles for accounts receivable or the expense and risk of litigation.

Interruptions or delays in service from our third-party data center hosting facilities could impair the delivery of our service and harm our business

We currently serve our customers from third-party data center hosting facilities. Any damage to, or failure of, our systems generally could result in interruptions in our service. As we continue to add data centers and add capacity in our existing data centers, we may move or transfer our data and our customers' data. Despite precautions taken during this process, any unsuccessful data transfers may impair the delivery of our service. Further, any damage to, or failure of, our systems generally could result in interruptions in our service. Interruptions in our service may reduce our revenue, cause us to issue credits or pay penalties, cause customers to terminate their subscriptions and adversely affect our renewal rates and our ability to attract new customers. Our business will also be harmed if our customers and potential customers believe our service is unreliable.

We do not control the operation of any of our hosting facilities, and they are vulnerable to damage or interruption from earthquakes, floods, fires, power loss, telecommunications failures and similar events. They may also be subject to break-ins, sabotage, intentional acts of vandalism and similar misconduct. Despite precautions taken at these facilities, the occurrence of a natural disaster or an act of terrorism, a decision to close the facilities without adequate notice or other unanticipated problems at these facilities

could result in lengthy interruptions in our service. Even with the disaster recovery arrangements, our service could be interrupted. All of the foregoing could adversely affect our business and financial condition.

If our security measures are breached and unauthorized access is obtained to a customer's data or our data, our service may be perceived as not being secure, customers may curtail or stop using our service and we may incur significant legal and financial exposure and liabilities

Our service involves the storage and transmission of customers' proprietary information, and security breaches could expose us to a risk of loss of this information, litigation and possible liability. These security measures may be breached as a result of third-party action, employee error, malfeasance or otherwise, during transfer of data to additional data centers or at any time, and result in someone obtaining unauthorized access to our data or our customers' data. Additionally, third parties may attempt to fraudulently induce employees or customers into disclosing sensitive information such as user names, passwords or other information in order to gain access to our data or our customers' data. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently and generally are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures.

In addition, our customers may authorize third party technology providers to access their customer data. Because we do not control the transmissions between our customers and third-party technology providers, or the processing of such data by third-party technology providers, we cannot ensure the complete integrity or security of such transmissions or processing. Any security breach could result in a loss of confidence in the security of our service, damage our reputation, lead to legal liability and negatively impact our future sales.

Insufficient funds

We may have insufficient funds from time to time to fulfill our short-term and/or long-term objectives. Furthermore, proceeds from the Offering may not be sufficient for us to fulfill or even partially realize our objectives.

8.3 Industry Risk

Competition

The Issuer operates in a highly competitive industry in which it faces a number of well established, existing and emerging direct and indirect competitors. Competitors may be further along in their development or more established than the Issuer and may have access to more resources than the Issuer.

If the Issuer is unable to compete it could have a material adverse effect on the Issuer's business. The Issuer cannot be certain that it will successfully compete with its competitors that may have greater financial, sales and technical resources. As a result, the Issuer may need to increase its marketing, advertising and promotional spending to secure market share, which may adversely impact its revenues and ultimately its profitability. The Issuer may not have the financial resources to increase such spending when necessary to compete. See section **2.2 Competitors**, above for additional information.

Environmental and Industry Regulation

The Issuer's success may be affected by the ability of the Issuer to maintain its compliance with laws and regulations in respect of use of the internet as a platform for business-to-business or business-to-customer commercial transactions, or regulatory change affecting use by Clients and Users. Changes to any of these laws and regulations could have a significant impact on the Issuer's business. Also, changes to any laws

and regulations related to Users, Clients, Carriers, and Shippers, including but not limited to environmental laws and laws related to transportation and shipping, may materially adversely affect the Issuer, its business and financial condition. There can be no assurance that the Issuer will be able to cost-effectively comply with all or any future laws and regulations.

Failure by the Issuer to comply with applicable laws and regulations may subject the Issuer to civil or regulatory proceedings, including fines or injunctions, which may have a material adverse effect on the Issuer's financial condition and results of operations.

Product or Service Obsolescence

If the Issuer is unsuccessful in meeting its objectives with respect to any of its service(s) and/or product(s), the Issuer's business will be harmed. There can be no assurance of the Issuer's ability to develop a product and/or service that is competitive with other similar applications or that it can then later develop a new version of the product or service that will meet changing Client and User preferences and receive widespread acceptance. Failure to develop and successfully market a 'User-friendly' product or service will have a material adverse impact on the Issuer's financial condition and results of operations.

ITEM 9: REPORTING OBLIGATIONS

9.1 Reporting

The Issuer is not a "reporting issuer" as such term is defined in applicable securities legislation and accordingly is not subject to most of the continuous disclosure reporting obligations imposed on reporting issuers by such securities legislation. **We are not required to send you any documents on an annual or ongoing basis.**

As a Shareholder you will receive audited or unaudited financial statements at each annual general meeting and the Issuer will deposit copies of the financial statements in its corporate records maintained at its records office which are available for inspection by any Shareholders during normal business hours, given reasonable notice. Further, you will be given notice of, be entitled to attend and vote your Shares at general meetings of the common shareholders the Issuer and at any other meeting that you are entitled to attend and/or vote your Common Shares (including Common Shares acquired as part of the Units).

9.2 Information Available from Securities Regulator

Prospective purchasers can find information about the Issuer on the British Columbia Securities Commission website (<http://www.bsc.bc.ca>), such as exempt distribution reports, offering memorandums, and other information that may be available there.

For securities sales made outside British Columbia, prospective purchasers may find information on the Issuer on SEDAR (<http://www.sedar.com/>). Alternately, a list of all Provincial securities regulatory authority websites and contact numbers can be found in *Item 15: Subscription Agreement* attached to this Offering Memorandum.

ITEM 10: RESALE RESTRICTIONS

10.1 General Statement

With respect to trades in all Provinces and Territories of Canada other than Manitoba, these securities will be subject to a number of resale restrictions, including a restriction on trading. Until the restriction on

trading expires, you will not be able to trade the securities unless you comply with an exemption from the prospectus and registration requirements under securities legislation.

Furthermore, pursuant to the Company's articles, for so long as the Company is not a public company, no Common Share may be sold, transferred or otherwise disposed of without the consent of the Company's director(s). Any sale, transfer or other disposition of the Shares is subject to the restrictions and other requirements in the Shareholders Agreement.

10.2 *Restricted Period*

With respect to trades in all Provinces and Territories of Canada other than Manitoba, unless permitted under securities legislation, you cannot trade the securities before the date that is 4 months and a day after the date the Issuer becomes a reporting issuer in any province or territory of Canada.

10.3 *Manitoba Resale Restrictions*

For subscribers in Manitoba or trades in Manitoba, unless permitted under securities legislation, you must not trade the securities without the prior written consent of the regulator in Manitoba unless:

- a. the Issuer has filed a prospectus with the regulator in Manitoba with respect to the securities you have purchased and the regulator in Manitoba has issued a receipt for that prospectus, or
- b. you have held the securities for at least 12 months.

The regulator in Manitoba will consent to your trade if the regulator is of the opinion that to do so is not prejudicial to the public interest.

ITEM 11: PURCHASERS' RIGHTS

If you purchase these securities you will have certain rights, some of which are described below. For information about your rights you should consult a lawyer.

11.1 *Two Day Cancellation Right*

You can cancel your agreement to purchase these securities. To do so, you must send a notice to us by midnight on the 2nd business day after you sign the agreement to buy the securities.

11.2 *Statutory Rights of Action in the Event of a Misrepresentation*

For Subscribers Resident in British Columbia

The Securities Act (British Columbia) (the "B.C. Act") provides purchasers resident in the Province of British Columbia (each a "B.C. Purchaser") with, in addition to any other right they may have at law, rights of rescission or damages, or both, where an offering memorandum, together with any amendments thereto, contains a misrepresentation.

In particular, section 132.1 of the B.C. Act provides that if this Offering Memorandum, together with any amendments hereto, contains a misrepresentation, and it was a misrepresentation at the time of purchase of the Units and/or the Shares (as applicable), a B.C. Purchaser to whom this Offering Memorandum was delivered and who purchases the Units and/or the Shares (as applicable) offered hereunder shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the

time of purchase and has, subject as hereinafter provided, a right of action against the Issuer, every director of Issuer at the date of the Offering Memorandum and every person who signed the Offering Memorandum for damages, which liability if found or admitted will be joint and several, and a right of rescission against the Issuer, provided that if the B.C. Purchaser elects to exercise a right of rescission against the Issuer, the B.C. Purchaser has no right of action for damages against the Issuer, and provided that:

- a. an action to enforce such right or rights must not be commenced (i) in the case of an action for rescission, more than 180 days after the date of the transaction that gave rise to the cause of action, or (ii) in the case of an action other than for rescission, more than the earlier of (A) 180 days after the B.C. Purchaser first had knowledge of the facts giving rise to the cause of action, or (B) 3 years after the date of the transaction that gave rise to the cause of action;
- b. no person will be liable if he, she or it proves that the B.C. Purchaser had knowledge of the misrepresentation;
- c. in the case of an action for damages, no person will be liable for all or any part of the damages that it proves does not represent the depreciation in value of the Units and/or the Shares (as applicable) resulting from the misrepresentation; and
- d. in no case will the amount recoverable in any action exceed the price at which the Units and/or the Shares (as applicable) were offered under the Offering Memorandum.

For Subscribers Resident in Alberta

The Securities Act (Alberta) (the “Alberta Act”) provides purchasers resident in the Province of Alberta (each an “Alberta Purchaser”) with, in addition to any other right they may have at law, rights of rescission or damages, where an offering memorandum, together with any amendments thereto, contains a misrepresentation.

In particular, section 204 of the Alberta Act provides that in the event that this Offering Memorandum, together with any amendments hereto, is delivered to an Alberta Purchaser and contains a misrepresentation, and it was a misrepresentation at the time of purchase of the Units and/or the Shares (as applicable), an Alberta Purchaser to whom this Offering Memorandum was delivered and who purchases the Units and/or the Shares (as applicable) offered hereunder (without regard to whether the purchaser relied upon such misrepresentation) has, subject as hereinafter provided, a right of action against the Issuer, every director of the Issuer at the date of the Offering Memorandum and every person or company who signed the Offering Memorandum for damages, which liability if found or admitted will be joint and several, or alternatively, a right of action against the Issuer for rescission, provided that if the Alberta Purchaser elects to exercise a right of rescission against the Issuer, the Alberta Purchaser has no right of action for damages against the Issuer or other above named person, and provided that:

- a. an action is commenced to enforce such right (i) in the case of an action for rescission, within 180 days after the date the transaction that gave rise to the cause of action or (ii) in the case of any action, other than an action for rescission, within the earlier of, (a) 180 days from the date that the Alberta Purchaser first had knowledge of the facts giving rise to the cause of action, or (b) 3 years from the date of the transaction that gave rise to the cause of action.
- b. no person will be liable if he, she or it proves that the Alberta Purchaser had knowledge of the misrepresentation;
- c. in the case of an action for damages, no person will be liable for all or any part of the damages that it proves does not represent the depreciation in value of the Units and/or the Shares (as applicable) as a result of the misrepresentation; and
- d. in no case will the amount recoverable in any action exceed the price at which the Units and/or the Shares (as applicable) were sold to the Alberta Purchaser.

For Subscribers Resident in Saskatchewan

The Securities Act (Saskatchewan) (the “Saskatchewan Act”) provides purchasers resident in the Province of Saskatchewan (each a “Saskatchewan Purchaser”) with, in addition to any other right they may have at law, rights of rescission or damages, or both, where an offering memorandum, together with any amendments thereto contains a misrepresentation.

In particular, section 138 of the Saskatchewan Act provides that in the event that this Offering Memorandum together with any amendment hereto is delivered to a Saskatchewan Purchaser of the Units and/or the Shares (as applicable) contains a misrepresentation, if it was a misrepresentation at the time of purchase of the Units and/or the Shares (as applicable), the Saskatchewan Purchaser will be deemed to have relied upon that misrepresentation and has either a right of action for damages against (i) the Issuer, (ii) every promoter and director of the Issuer at the time the Offering Memorandum or amendment thereto was sent or delivered, (iii) every person or company whose consent has been filed respecting the Offering, but only with respect to reports, opinions or statements that have been made by them, (iv) every person or company that, in addition to the persons or companies mentioned in (i) to (iii), signed the Offering Memorandum or the amendment to the Offering Memorandum; and (v) every person who or company that sells securities on behalf of the Issuer under the Offering Memorandum or amendment to the Offering Memorandum (which liability if found or admitted will be joint and several), or the Saskatchewan Purchaser may elect to exercise a right of rescission against the Issuer and when the Saskatchewan Purchaser so elects, the Saskatchewan Purchaser shall have no right of action for damages.

A Saskatchewan Purchaser will be entitled to enforce the foregoing rights, provided that:

- a. no person or company will be liable where the person or company proves that the Saskatchewan Purchaser purchased the Units and/or the Shares (as applicable) with knowledge of the misrepresentation;
- b. in an action for damages, the person or company is not liable for all or any portion of the damages that he, she or it proves do not represent the depreciation in value of the security from the misrepresentation relied on; and
- c. in no case shall the amount recoverable exceed the price at which the securities were offered to the public.

The Saskatchewan Act also provides that where an individual makes a verbal statement to a prospective purchaser of a security that contains a misrepresentation relating to the security purchased and the verbal statement is made either before or contemporaneously with the purchase of the security, the Saskatchewan Purchaser is deemed to have relied on the misrepresentation, if it was a misrepresentation at the time of the purchase and has a right of action for damages against that individual, provided that:

- a. no individual is liable if the individual proves that the Saskatchewan Purchaser purchased the securities with knowledge of the misrepresentation;
- b. no individual is liable if the individual can establish that he or she cannot reasonably be expected to have known that his or her statement contained a misrepresentation;
- c. no individual is liable if prior to the purchase of the securities by the Saskatchewan Purchaser, the individual notified the Saskatchewan Purchaser that the individual's statement contained a misrepresentation;
- d. in no case is the amount recoverable to exceed the price at which the securities were offered to the public; and
- e. in an action for damages, the defendant is not liable for all or any portion of the damages that the defendant proves do not represent the depreciation in value of the security resulting from the misrepresentation relied on.

No action shall be commenced to enforce the above Saskatchewan Act rights more than:

- a. in the case of an action for rescission, 180 days after the date of the transaction that gave rise to the cause of action; or
- b. in the case of any action, other than an action for rescission, the earlier of one year after the Saskatchewan Purchaser first had knowledge of the facts giving rise to the cause of action or six years after the date of the transaction that gave rise to the cause of action.

For Subscribers Resident in Manitoba

The Securities Act (Manitoba) (the “Manitoba Act”) provides purchasers resident in the Province of Manitoba (each a “Manitoba Purchaser”) with, in addition to any other right they may have at law, rights of rescission or damages, or both, where an offering memorandum, together with any amendments thereto, contains a misrepresentation.

In particular, section 141.1 of the Manitoba Act provides that if this Offering Memorandum, together with any amendments hereto, contains a misrepresentation, and it was a misrepresentation at the time of purchase of the Units and/or the Shares (as applicable), a Manitoba Purchaser to whom this Offering Memorandum was delivered and who purchases the Units and/or the Shares (as applicable) offered hereunder shall be deemed to have relied on the misrepresentation and has, subject as hereinafter provided, a right of action against the Issuer, every director of the Issuer at the date of the Offering Memorandum and every person or company who signed the Offering Memorandum for damages, which liability if found or admitted will be joint and several, and a right of rescission against the Issuer, provided that if the Manitoba Purchaser elects to exercise a right of rescission against the Issuer the Manitoba Purchaser has no right of action for damages against the Issuer or any other person mentioned above, and provided that:

- a. an action to enforce such right or rights must not be commenced (i) in the case of an action for rescission, more than 180 days after the date of the transaction that gave rise to the cause of action, or (ii) in the case of an action other than for rescission, more than the earlier of (A) 180 days after the Manitoba Purchaser first had knowledge of the facts giving rise to the cause of action, or (B) 2 years after the date of the transaction that gave rise to the cause of action;
- b. no person will be liable if he, she or it proves that the Manitoba Purchaser had knowledge of the misrepresentation;
- c. in the case of an action for damages, no person will be liable for all or any part of the damages that it proves does not represent the depreciation in value of the Units and/or the Shares resulting from the misrepresentation; and
- d. in no case will the amount recoverable in any action exceed the price at which the Units and/or the Shares (as applicable) were offered under the Offering Memorandum.

For Subscribers Resident in Ontario

The Securities Act (Ontario) (the “Ontario Act”) provides purchasers resident in the Province (each an “Ontario Purchaser”) with, in addition to any other right they may have at law, rights of rescission or damages where an Offering Memorandum, together with any amendments thereto contains a misrepresentation.

In particular, section 130.1 of the Ontario Act provides that if this Offering Memorandum contains a misrepresentation, an Ontario Purchaser who purchases the Units and/or the Shares (as applicable) offered by this Offering Memorandum during the period of distribution has a right of action for damages against the Issuer or, alternatively, may elect to exercise a right of rescission against the Issuer, without regard to whether the Ontario Purchaser relied on the misrepresentation, provided that if the Ontario Purchaser exercises its right of rescission, it shall not have a right of action for damages against the Issuer, and provided that:

- a. no action shall be commenced to enforce these rights more than (i) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action, or (ii) in the case of any action, other than an action for rescission, the earlier of (A) 180 days after the Ontario Purchaser first had knowledge of the fact giving rise to the cause of action, or (B) three years after the date of the transaction that gave rise to the cause of action;
- b. the Issuer will not be liable if it proves that the Ontario Purchaser purchased the Units and/or the Shares (as applicable) with knowledge of the misrepresentation;
- c. in an action for damages, the Issuer will not be liable for all or any portion of the damages that the Issuer proves do not represent the depreciation in value of the Units and/or the Shares (as applicable) as a result of the misrepresentation relied upon; and
- d. in no case will the amount recoverable exceed the price at which the Units and/or the Shares (as applicable) were offered.

For Subscribers Resident in New Brunswick

The Securities Act (New Brunswick) (the “New Brunswick Act”) provides purchasers resident in the Province (each a “New Brunswick Purchaser”) with, in addition to any other right they may have at law, rights of rescission or damages where an Offering Memorandum, together with any amendments thereto contains a misrepresentation.

In particular, section 150 of the New Brunswick Act provides that if this Offering Memorandum, together with any amendments hereto, contains a misrepresentation, and it was a misrepresentation at the time of purchase of the Units and/or the Shares (as applicable), a New Brunswick Purchaser to whom this Offering Memorandum was delivered and who purchases the Units and/or the Shares (as applicable) offered hereunder shall be deemed to have relied on the misrepresentation and has, subject as hereinafter provided, a right of action against the Issuer, and a right of rescission against the Issuer, provided that if the New Brunswick elects to exercise a right of rescission against the Issuer, the New Brunswick Purchaser has no right of action for damages against the Issuer, and provided that:

- a. no action shall be commenced to enforce these rights more than (i) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action, or (ii) in the case of any action for damages, the earlier of (A) one year after the New Brunswick Purchaser first had knowledge of the fact giving rise to the cause of action, or (B) six years after the date of the transaction that gave rise to the cause of action;
- b. the Issuer will not be liable if it proves that the New Brunswick Purchaser purchased the Units and/or the Shares (as applicable) with knowledge of the misrepresentation;
- c. in an action for damages, the Issuer will not be liable for all or any portion of the damages that the Issuer proves do not represent the depreciation in value of the Units and/or the Shares (as applicable) as a result of the misrepresentation relied upon; and
- d. in no case will the amount recoverable exceed the price at which the Units and/or the Shares (as applicable) were offered.

Further, an Issuer shall not be liable where it is not receiving any proceeds from the distribution of the Units and/or the Shares (as applicable) being distributed and the misrepresentation was not based on information provided by the Issuer unless the misrepresentation

- a. was based on information that was previously publicly disclosed by the Issuer,
- b. was a misrepresentation at the time of its previous public disclosure, and
- c. was not subsequently publicly corrected or superseded by the Issuer before the completion of the distribution of the Units and/or the Shares (as applicable) being distributed.

Subscribers Resident in other Provinces

Subscribers resident in provinces other than those mentioned above may have statutory rights of action in the event of a misrepresentation and should refer to the applicable laws of their respective provinces and consult with their legal advisers with respect to such rights of action.

11.3 Contractual Rights of Action in the Event of a Misrepresentation

For Subscribers resident in a jurisdiction where the securities legislation does not provide a comparable statutory right of action in the event of a misrepresentation in this Offering Memorandum as indicated above, if there is a misrepresentation in this Offering Memorandum or any information or documents incorporated or deemed to be incorporated by reference into this Offering Memorandum, then, you have a contractual right to sue the Issuer:

- a. for rescission (to cancel your agreement to buy these securities), or
- b. for damages.

This contractual right to sue is available to a purchaser whether or not the purchaser relied on the misrepresentation. As part of this contractual right to sue, in an action for damages, the amount a purchaser may recover:

- (i) must not exceed the price that the purchaser paid for the purchaser's securities;
- (ii) does not include all or any part of the damages that the Issuer proves does not represent the depreciation in value of the securities resulting from the misrepresentation; and
- (iii) is in addition to, and does not detract from, any other right of the purchaser.

The Issuer has a defence if it proves that the purchaser knew of the misrepresentation when you purchased the securities.

If you intend to rely on the rights described in a. or b. above, you must do so within strict time limitations.

These rights are enforceable by a purchaser by delivering a notice to the Issuer:

- (i) in the case of an action for rescission, within 180 days after the purchaser signs the agreement to purchase the security, or
- (ii) in the case of an action for damages, before the earlier of
 - (A) 180 days after the purchaser first has knowledge of the facts giving rise to the cause of action, or
 - (B) 3 years after the date the purchaser signs the agreement to purchase the security

We have audited the accompanying financial statements of Freightera Logistics Inc. which comprise the statement of financial position as at December 31, 2017 and December 31, 2016 and the statements of comprehensive loss, changes in equity, and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Freightera Logistics Inc. as at December 31, 2017 and December 31, 2016, and financial performance, changes in equity and cash flows for the years then ended in accordance with International Financial Reporting Standards.

FREIGHTERA LOGISTICS INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016
(In Canadian Dollars)

1. Nature of business

Freightera Logistics Inc. (the "Company") was incorporated under the laws of British Columbia on May 1, 2014 and operates from its main place of business at 200 – 375 Water Street, Vancouver, British Columbia.

The company runs an online freight marketplace by providing real-time fixed cost freight quotes, online bookings and document generation and storage. All of the company's revenue is derived from transaction fees earned from successful bookings by customers.

The company is dependant on its ability to raise funds and there is no assurance that the company will be able to raise the amount of funds required to finance its activities.

2. Statement of compliance

These financial statements have been prepared in accordance and compliance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretation of the International Financial Reporting Interpretations Committee ("IFRIC").

The policies in these financial statements are based on IFRS issued and outstanding as of March 28, 2018.

3. Basis of accounting

a) Basis of measurement and functional currency

The financial statements are presented in Canadian dollars, which is the company's functional currency. The financial statements have been prepared on the historical cost basis except for certain assets, liabilities and financial instruments which are measured at their fair values, as explained in the relevant accounting policies.

b) Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and the reported amounts of revenue and expenses. Actual results could differ from these estimates.

FREIGHTERA LOGISTICS INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

(In Canadian Dollars)

3. Basis of accounting - continued

b) Use of estimates and judgements - continued

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

The estimates and judgements that are critical to the determination of the amounts reported in the financial statements relate to the following:

i) Financial instruments

The company estimates and discloses the fair value of financial instruments. When fair value cannot be derived from an active market, it is determined using valuation techniques, namely the discounted cash flow method.

ii) Valuation of non-financial assets

The valuation of non-financial assets such as property and equipment requires estimates relating to the future cash flows and the useful lives of the assets.

4. Significant accounting policies

The following is a summary of the significant accounting policies applied in the preparation of these financial statements. These policies have been consistently applied by the company in the current year:

a) Financial instruments

At initial recognition, financial instruments are classified in the following categories depending on the purpose for which the instruments were acquired.

Fair value through profit and loss

A financial asset or liability is classified in this category if acquired principally for the purpose of selling or repurchasing in the short-term or if designated to be in this category at inception. Financial instruments in this category are measured at fair value upon initial recognition, with changes in fair value recognized in the statement of comprehensive income. Cash is classified as "fair value through profit and loss".

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are measured at fair value upon initial recognition plus transaction costs. Subsequently, loans and receivables are measured at amortized cost using the effective interest method less a provision for impairment, if necessary. Accounts receivable and amounts due from CosmoCulture Media Inc. are classified as "loans and receivables".

4. Significant accounting policies - continued

a) Financial instruments - continued

Other liabilities

Other liabilities are measured at fair value upon initial recognition, net of any transaction costs incurred. Subsequently, other liabilities are measured at amortized cost using the effective interest method. Other liabilities include accounts payable and accrued liabilities and amounts due to CosmoCulture Media Inc.

Share capital

The common shares are classified as equity. Incremental costs directly attributable to the issue of shares and share options are recognized as a deduction from equity, net of any tax effects.

b) Property and equipment

Property and equipment are stated at cost less any accumulated depreciation and impairment losses. Cost includes the acquisition cost as well as any costs directly attributable to bringing the asset to the location and condition necessary for its use in operations.

Depreciation is recognized in profit or loss using the declining balance method at the following annual rates:

Computer equipment	- 55%
--------------------	-------

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c) Impairment

The carrying amount of the company's non-financial assets is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the profit or loss for the year. An impairment loss in respect of intangible assets is not reversed. In respect to other assets, an impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a change in estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized in previous years.

(In Canadian Dollars)

4. Significant accounting policies - continued

d) Revenue

The company recognizes revenue at the time persuasive evidence exists that a customer's shipment has been picked up by a carrier.

e) Income tax

Income tax expense comprises current and deferred tax and is recognized in profit or loss. Current tax is the tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates enacted or substantially enacted. A deferred tax asset is recognized for unused tax losses, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

f) Foreign currency translation

Foreign currency transactions are initially recorded in the functional currency at the transaction date exchange rate. At each reporting date, monetary assets denominated in a foreign currency are translated in the functional currency at the closing date exchange rate. All foreign currency adjustments are expensed.

g) Future accounting pronouncements

IFRS 9 – Financial Instruments was issued in final form in July 2014 by the IASB and will replace IAS 39 – Financial Instruments: Recognition and Measurement. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual years beginning on or after January 1, 2018. A detailed review will be completed in order to determine if this standard will have a significant impact to the company's financial statements.

IFRS 15 - Revenue from Contracts with Customers. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements. The new standard is effective for annual years beginning on or after January 1, 2017. IFRS 15 supersedes the following standards: IAS 11 Construction Contracts, IAS 18 Revenue, International Financial Reporting Interpretation Committee ("IFRIC") 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC-31 Revenue - Barter Transactions Involving Advertising Services. A detailed review will be completed in order to determine if this standard will have a significant impact to the company's financial statements.

Freightera Logistics Inc. (the "Company") was incorporated under the laws of British Columbia on May 1, 2014 and operates from its main place of business at 200 – 375 Water Street, Vancouver, British Columbia.

The company operates an online freight marketplace by providing real-time fixed cost freight quotes, online bookings and document generation and storage. The company is contractually bound to settle any payments due on its sales transactions. The company is dependent on its ability to raise funds and there is no assurance that the company will be able to raise the amount of funds required to finance its activities.

In all cases, the results for the fiscal year 2016 and 2017 were audited by the firm of Collins Barrow Chartered Accountants and were approved and authorized for issue by the board of directors on April 30, 2018.

3. SHARE TRANSFERS

3.1 Restriction on Change of Control of Corporate Shareholders

No Shareholder, if such Shareholder is a corporation, may enter into any transaction or series of transactions that results in a Change of Control of such Shareholder, without the prior written consent of the Board which may be withheld in its sole discretion.

3.2 Restriction on Transfer of Shares

Subject to Section 3.6, no Shareholder shall Transfer, either directly or indirectly, any or all of its Shares to any Person, whether a Shareholder or not, except as otherwise provided for in this Agreement.

3.3 Right of First Refusal

Subject to Section 3.6, before a Shareholder may Transfer any Shares, the Shareholder (the **"Offeror"**) must comply with the following provisions, unless Sections 3.4 or 3.5 apply in which case this Section 3.3 will not apply and (and either of Sections 3.4 or 3.5 should be complied with as applicable):

- a. The Offeror desiring to Transfer any or all of its Shares (the **"Offered Shares"**) shall give written notice to the Corporation (the **"Transfer Notice"**) specifying the number of Offered Shares, the price, for the Offered Shares, and the terms of payment upon which the Offeror is prepared to Transfer the Offered Shares. The Transfer Notice shall appoint the Corporation as the agent of the Offeror for the sale of the Offered Shares to the other Shareholders (the **"Other Offerees"**) at the price and upon the terms of payment specified in the Transfer Notice. The Transfer Notice shall also state whether the Offeror has received an offer to purchase (the **"Third Party Offer"**) the Offered Shares, or any of them, from, or proposes to sell the Offered Shares, or any of them, to, any particular Person or Persons who are not Shareholders and, if so, the names and addresses of those persons shall be specified in the Transfer Notice.
- b. The Corporation shall forthwith, and no later than 2 business days after receiving the Transfer Notice, transmit a copy of the Transfer Notice to each of the Other Offerees and shall request that each such Other Offerees state in writing, within 7 calendar days from the date that the Transfer Notice is transmitted to the Other Offerees, whether the Other Offerees are willing to purchase any of the Offered Shares and, if so, the maximum number they are willing to purchase.
- c. Upon the expiration of the 7-day notice period provided for in subsection 3.3(b) above, if the Corporation has received from the Other Offerees entitled to receive the Transfer Notice sufficient acceptances to purchase all the Offered Shares, the Corporation shall thereupon apportion the Offered Shares among the Other Offerees so accepting pro rata in proportion to the number of Shares held by each of them respectively up to the number of Offered Shares accepted by each of them respectively. If the Corporation did not receive sufficient acceptances to purchase all of the Offered Shares, the Corporation may apportion the Offered Shares among

the Other Offerees accepting pro rata in proportion to the number of Shares held by each of them respectively, up to the number of the Offered Shares accepted by each of them respectively. Any time before or upon the expiration of the 7-day notice period provided in subsection 3.3(b), the Corporation shall forthwith, being no later than 1 calendar day after such expiration, notify the Offeror whether any of the Offered Shares will be purchased by the Other Offerees, and should the Corporation not provide such notice, the Offeror may Transfer the Offered Shares pursuant to subsection 3.3(e) unless prohibited to do so in accordance with other Sections of this Agreement.

- d. After an apportionment has been made pursuant to subsection 3.3(c). and upon payment to the Offeror or the Corporation (who accepts payment on behalf of the Offeror) of the price for the Offered Shares apportioned, the Offeror shall be bound to Transfer those Shares for which payment has been made, in accordance with that apportionment and, if the Offeror fails to do so, the Corporation shall cause the name of the purchasing Other Offerees to be entered in the register of shareholders of the Corporation as the holders of those Shares and shall cancel the share certificates previously issued to the Offeror representing those Shares, whether they have been produced to the Corporation or not. Payment to the Corporation, as agent for the Offeror, of the Purchase Price shall be sufficient payment by the purchasing Other Offerees, and entry of the Transfer in the register of shareholders of the Corporation shall be conclusive evidence of the validity of the Transfer. Upon completion of the Transfer, the Corporation shall pay the Purchase Price to the Offeror. Any Offered Shares not purchased by the Other Offerees ("**Residual Shares**") may be transferred pursuant to subsection 3.3(e).
- e. If, after compliance with the provisions of Sections 3.3(a) to 3.3(d) above, there are Residual Shares, then the Offeror will have the option to Transfer all of the Residual Shares to any Person, provided that the Offeror shall not sell any of the Offered Shares at a price less than that specified in the Transfer Notice or on terms more favourable to the purchaser than those specified in the Transfer Notice and the transfer of the Residual Shares or any of them takes place within 90 calendar days from the expiration of the 7-day notice period as provided for in subsection 3.3(b) above.

3.4 Tag Along Rights

With respect to the transfer of a particular class of Shares, if any Founder (a "**Piggyback Seller**" for the purposes of this Section) wishes to Transfer its Shares (the "**Offered Securities**") to a third party (a "**Piggyback Sale**"), then any Shareholder (the "**Other Holder**") shall have the right (the "**Piggyback Right**") to participate in any such Transfer of Shares by that Piggyback Seller on the following terms and conditions:

- a. Intended Sale Notice. If the Piggyback Seller intends to proceed with a Piggyback Sale, the Piggyback Seller shall immediately notify each Other Holder in writing specifying:
 - i. The name and address of the third party (the "**Third Party**") intended to purchase the Offered Securities;
 - ii. The purchase price the Third Party is to pay the Piggyback Seller for the Shares to be purchased (the "**Specified Prices**") and the other terms and conditions of the intended sale;
 - iii. The number and class of Equity Securities held by the Third Party and its Associates and Affiliates; and

- iv. That each Other Holder has the Piggy Right provided under this Section in respect of the proposed Transfer.
- b. Securities which can be Piggybacked. Each Other Holder shall be entitled to sell to the Third Party, in conjunction with the closing of the Third Party's purchase of Shares from the Piggyback Seller, such Other Holders pro rata portion of his, her or its Shares (or such lesser number of Shares as each Other Holder may determine) determined by the following formula, and for clarity such entitlement is only with respect to the particular class(es) of Shares that is/are part of the Piggyback Sale and the following formula is to be calculated for each such class separately:

$$\begin{array}{lcl}
 \text{Proportion of the class} & & \text{Number of such particular class of Shares on a Fully} \\
 \text{of Shares that is to be} & = & \text{Converted Basis held by the Other Holder for whom} \\
 & & \text{this formula is being used for} \\
 \text{Transferred in the} & & \\
 \text{Piggyback Sale an} & & \\
 \text{Other Holder may sell} & & \text{Total number of such particular class of Shares on a} \\
 & & \text{Fully Converted Basis then held by all Other Holders} \\
 & & \text{(including the Other Holder for whom this formula is} \\
 & & \text{being used for) and the Piggyback Seller as a group} \\
 & & \text{X 100\%}
 \end{array}$$

- c. Exercise Notice. Each Other Holder shall have 14 calendar days after the receipt of the Piggyback Notice, to exercise its Piggyback Right by written notice to the Piggyback Seller specifying the number of Shares which each Other Holder elects to sell to the Third Party hereunder as applicable given the particular class of Shares the Third Party is intending to purchase from the Piggyback Seller.
- d. Piggyback Sale to Third Party. If an Other Holder exercises the Piggyback Right, the Piggyback Seller may not complete the Transfer of the Offered Securities to the Third Party unless the Third Party also purchases from the Other Holder all of the Shares (the "**Piggyback Securities**") in respect of which the Piggyback Right was exercised at the same time and on the same terms and conditions.

If the Third Party will not purchase the Piggyback Securities from the Other Holders on the terms and conditions provided for herein, then the Piggyback Seller shall not Transfer the Offered Securities to the Third Party. If the Piggyback Seller Transfers all or part of the Offered Securities to the Third Party in violation of the foregoing, then each Other Holder shall have the right to put (by notice in writing) its Piggyback Securities to the Piggyback Seller at the Specified Prices, in addition to any other rights or remedies it may have at law or equity.

For clarity, this Section gives the right to Other Holders to sell the particular Share class that is subject to the Piggyback Sale and not for other Share classes that were not subject to the Piggyback Sale.

For the purposes of Section 5.2 (below), "**Tag Along Transaction**" means the transactions described under this Section, and for clarity and for the purposes of Section 5.2, the consummation of a Tag Along Transaction occurs when either: (1) if the Piggyback Seller Transfers all or part of the Offered Securities to the Third Party in compliance with this Section, then the completion of such transfer, or (2) if the Piggyback Seller Transfers all or part of the Offered Securities to the Third Party in violation of this Section, then after each Other Holder has either put (by notice in writing) its Piggyback Securities to the Piggyback Seller at the Specified Prices or has indicated in writing that such holder would not exercise such put.

For clarity, the "put" or the "right to put" referred to in this Section, refers to a securityholder's right to sell its security to the person against whom they are exercising the put/right to put against.

3.5 Drag Along Rights

If:

- a. shareholders of the Corporation holding not less than 80% of the issued and outstanding Common Shares (on a Fully Converted Basis) (the “Selling Shareholders”) have agreed to Transfer to an arm’s-length Person or Persons acting in concert (the “**Purchaser**” for the purposes of this Section) pursuant to a bona fide offer all of the Common Shares of the Corporation held by the Selling Shareholders or the Selling Shareholders approve a sale of all or substantially all of the assets of the Corporation to the Purchaser; and
- b. in the case of an offer for all of the Common Shares of the Corporation as indicated in the subsection above, the Purchaser offers to each of the other shareholders of the Corporation (the “Other Shareholders”) to purchase the remaining Common Shares of such Other Shareholders (the “**Specified Securities**”) on equivalent terms and conditions, mutatis mutandis, as those agreed to by the Selling Shareholders, but subject to the rights and restrictions, including all liquidation preferences, attaching to the respective Shares as set out herein and in the Constatting Documents of the Corporation, and all of which terms and conditions are set out in writing and promptly delivered to the Other Shareholders (the “**Drag Along Offer**”),

then, in the case of an offer for all of the Common Shares of the Corporation, the Other Shareholders will be required to sell all of their Specified Securities to the Purchaser in accordance with the terms and conditions of the Drag Along Offer, and in the case of a sale of all or substantially all of the assets of the Corporation, the Other Shareholders shall consent to, vote for and raise no objection to such sale and shall do such additional acts as are necessary and desirable to give effect to such sale.

If any of the Other Shareholders (the “**Delinquent Holders**”) fail to sell their Specified Securities to the Purchaser in accordance with the terms and conditions of the Drag Along Offer, the Purchaser will have the right to deposit the applicable purchase price for those Specified Securities of the Delinquent Holders in a special account at any financial institution in Canada, to be paid proportionately with interest, to the respective Delinquent Holders upon presentation and surrender to such financial institution of the certificates or documents representing such Delinquent Holders’ Specified Securities duly endorsed for transfer to the Purchaser. Upon such deposit being made, the Specified Securities in respect of which the deposit was made will hereby automatically (without any further action of any kind on the part of the Delinquent Holders or the Purchaser unless required by applicable laws) be transferred to and purchased by the Purchaser and will be transferred on the books of the Corporation to the Purchaser and the rights of the Delinquent Holders in respect of those Specified Securities after such deposit will hereby be limited to receiving, with interest (this interest only relates to bank interest if the deposit was made to an interest bearing account), their respective portion of the total amount so deposited against presentation and surrender of the certificates or documents representing their respective Specified Securities duly endorsed for transfer to the Purchaser.

For the purposes of Section 5.2 (below), “**Drag Along Transaction**” means the transactions described under this Section, and for clarity and for the purposes of Section 5.2, the consummation of a Drag Along Transaction occurs when either: (1) in the case of an offer for all of the Common Shares of the Corporation, the Other Shareholders have sold all of their Specified Securities to the Purchaser in accordance with the terms and conditions of the Drag Along Offer as described under this Section (or if there are any Delinquent Holders, then consummation occurs when the Purchaser has deposited the applicable purchase price for such holders’ Specified Securities as described under this Section); or (2) in the case of a sale of all or substantially all of the assets of the Corporation, the Other Shareholders have consented to or otherwise voted in favour to such sale.

3.6 Permitted Transfers

Subsections 3.2 and 3.3, do not apply to the following Transfers of Equity Securities:

- a. **Transfer to Affiliates.** Any Shareholder may Transfer or otherwise dispose of all or any part of its Shares to an Affiliate of the Shareholder provided that, prior to any such Transfer, the Shareholder and the Affiliate enter into an agreement with the other parties to this Agreement, which provides that:
 - i. the Affiliate will remain an Affiliate of the Shareholder for so long as the Affiliate holds the Shares;
 - ii. prior to the Affiliate ceasing to be an Affiliate of the Shareholder, the Affiliate will Transfer its Shares to the Shareholder or to another Affiliate of the Shareholder, and that such other Affiliate will enter into an agreement similar to this Agreement with the other Shareholders and the Corporation;
 - iii. the Affiliate will otherwise be bound by and have the benefit of the provisions of this Agreement; and
 - iv. the obligations of the original Shareholder hereunder shall not in any way be released and shall continue in full force and effect.
- b. **Transfer to Family Trust, Spouse, Child or Registered Retirement Savings Plan.** Any Shareholder may Transfer or otherwise dispose of all or any part of its Shares to a Family Trust, spouse, child or a registered retirement savings plan or tax-free saving plan (or account) or any similar plan (or account) of the Shareholder, provided that prior to any such Transfer, the Shareholder and the Family Trust, the spouse or child of the Shareholder, or the trustee of the Shareholder's registered retirement savings plan enter into an agreement with the other parties to this Agreement, which provides that:
 - i. the transferee(s) will be bound by and have the benefit of the provisions of this Agreement; and
 - ii. the obligations of the original Shareholder hereunder shall not in any way be released and shall continue in full force and effect.
- c. **Death.** Any Shareholder may Transfer or otherwise dispose of all or any part of its Shares upon the death of a Shareholder, in which case that Shareholder's Shares may be Transferred in accordance with a probated will of the deceased or by operation of laws for the administration of estates upon intestacy, provided that each such transferee enters into an agreement under which the transferee becomes party to and bound by this Agreement.
- d. **Redemptions, Retractions, etc.** Any Transfer of Shares made in accordance with the special rights and restrictions (if any) attached to Shares, any Transfer(s) made in accordance with Section 3.4 or Section 3.5, or a Transfer of Equity Securities under a repurchase of Equity Securities by the Corporation itself.
- e. **Approval by the Board.** Any Person or Persons approved by the Board.

3.7 Founders' Subordination.

Notwithstanding anything to the contrary, if prior to an IPO, the Corporation undergoes a Sale, then if the aggregate proceeds from such Sale that are payable to each Shareholder for his or her Common Shares is less than the Original Purchase Price (as computed, the "**Shareholder Deficit**"), then each of the Founders shall forfeit and subordinate to such Shareholders, such portion of their proceeds that is in excess of their respective aggregate Original Purchase Price, to the extent of such Shareholder Deficit.

3.8 Endorsement on Share Certificates

Any and all certificates representing Equity Securities now or hereafter owned by Shareholders during the currency of this Agreement (whether such Equity Securities are issued initially or following a Transfer or otherwise) will have endorsed thereon in bold type the following legend:

"The securities represented by this certificate are subject to the provisions of a Shareholders Agreement dated for reference the [inset date of Shareholders Agreement], as amended, restated or replaced from time to time, and such securities are not transferable on the books of the Corporation except in accordance and compliance with the terms and conditions of such Agreement and Articles of Incorporation of the Corporation."

3.9 Waiver of Rights

Notwithstanding any other provision of this Article 3, any Person may waive its rights with respect to any particular offer or right given under, or provision contained in, this Article 3 by notice in writing to the Corporation and the Shareholder who is proposing to transfer Shares.

3.10 Shareholder Transfer of Agreement Rights

The Transfer of Equity Securities by a Shareholder pursuant to the provisions of Article 3 includes the transfer of such Shareholders' rights under this Agreement.

3.11 Recognition of Transfers

The Corporation will not recognize any Transfers of Shares made in violation of this Agreement unless mandated by an amendment to this Agreement or court order having jurisdiction over the Corporation.

4. PRE-EMPTIVE RIGHTS

Subject to Section 4.2 and any applicable laws (including stock exchange rules or policies), each time the Corporation proposes to allot, issue, sell or resell any Equity Securities, the Corporation shall first offer (the "**Treasury Offer**") the Equity Securities to the Shareholders (collectively the "**Treasury Offerees**" and individually a "**Treasury Offeree**") on the following basis unless it is prohibited to do by applicable laws:

- a. **Pro Rata Portions.** The number of Equity Securities a particular Treasury Offeree shall be offered and may purchase shall be determined by the following formula:

$$\begin{array}{lcl}
 \text{Number of Equity Securities which the Treasury Offeree shall be offered and may purchase} & = & \frac{\text{Number of Common Shares (as calculated on a Fully Convertible Basis) held by the Treasury Offeree immediately prior to the Treasury Offer}}{\text{Number of Common Shares (as calculated on a Fully Convertible Basis) held by all Treasury Offerees immediately prior to the Treasury Offer}} \times \text{Total Number of Equity Securities being offered}
 \end{array}$$

- b. **Notice of Offer.** Each Treasury Offer shall be made by written notice to the Treasury Offerees specifying:

The Treasury Offeree may also specify in such notice an additional number of the Equity Securities (“**Specified Additional Amount**”) offered for sale that the Treasury Offeree is prepared to purchase if any of the other Treasury Offeree fails to fully accept their offered portion of the Treasury Offer. If a Treasury Offeree does not accept the Treasury Offer by the expiration of the Acceptance Period, then such Treasury Offeree shall be deemed to have refused the Treasury Offer. Additionally, if all Treasury Offerees notify the Corporation in writing that they accept or decline the Treasury Offer before the end of the Acceptance Period, then the Acceptance Period shall be deemed to have ended on the date the last such notice is received by the Corporation.
- d. **Sale to Third Party.** The Corporation shall be entitled to allot, issue or sell the balance of any of the offered Equity Securities in the Treasury Offer which are not purchased by the Treasury Offerees upon completion of the above process in this Section to any Person(s), other than a Treasury Offeree who did not accept the Treasury Offer, provided that, unless required by applicable laws (including stock exchange rules or policies, such allotment, issuance or sale shall not be effected at a price which is less than the price or on terms and conditions which are more favourable (from the purchaser's perspective) than those set forth in the written notice to the Treasury Offerees concerning the Treasury Offer.

You are buying Exempt Market Securities

They are called *exempt market securities* because two parts of securities laws do not apply to them. If an issuer wants to sell *exempt market securities* to you:

- a. the issuer does not have to give you a prospectus (a document that describes the investment in detail and gives you some legal protections), and
- b. the securities do not have to be sold by an investment dealer registered with a securities regulatory authority or regulator.

There are restrictions on your ability to resell *exempt market securities*. *Exempt market securities* are more risky than other securities.

You will receive an offering memorandum

Read the offering memorandum carefully because it has important information about the issuer and its securities. Keep the offering memorandum because you have rights based on it. Talk to a lawyer for details about these rights.

You will not receive advice

You will not get professional advice about whether the investment is suitable for you. But you can still seek that advice from a registered adviser or registered dealer. In Manitoba, Northwest Territories, Nunavut, Prince Edward Island and Yukon to qualify as an eligible investor, you may be required to obtain that advice.

The securities you are buying are not listed

The securities you are buying are not listed on any stock exchange, and they may never be listed. You may never be able to sell these securities.

The issuer of your securities is a non-reporting issuer

A *non-reporting issuer* does not have to publish financial information or notify the public of changes in its business. You may not receive ongoing information about this issuer.

For more information on the exempt market, call your local securities regulatory authority or regulator (see following page).
